Social determinants of health

The social determinants of health are the conditions in which we are born, we grow and age, and in which we live and work. The factors below impact on our health and wellbeing.

Some challenges exist before disasters

-  Cultural or socio-economic challenges
-  Pursuit of common good over potentially divisive political or personal beliefs
-  Functional & Access Needs populations require special consideration.

Healthcare & the Whole Community

-  Healthcare & Community Lifelines
-  NM Regional Healthcare Coalitions
-  Partner Professions: Employee Health, Industrial Health & Safety, State & Federal agencies, and others

Healthcare & the Whole Community

Lifelines Toolkit 2.0 is here.
