Remote Accountability Tool for Your Recovery

When Recovery Starts

The Soberlink program was designed to empower people in their first year of recovery. Studies show that monitoring in early recovery can lead to significantly better outcomes because it reinforces accountability and transparency with your recovery circle.

What Clients Say

"Soberlink provides me that accountability that I just couldn't seek out through recovery on my own."

– Soberlink Client

"I started using Soberlink after my last stint in rehab. I voluntarily signed up to help me stay sober and be accountable. I have been sober over two years and still use Soberlink once a day, every night."

– Soberlink Client

"Soberlink made the difference for me in my recovery. It kept me focused on my sobriety, engaged with my therapist, and gave peace of mind to my loved ones."
