- Nontoxic (aquatic & human)
- Phosphate Free
- Biodegradable*
- No Added Fragrances
- Non-Corrosive
- Contains No Hazardous Ingredients**
- No Glycol Ethers
- No Alkalies

PRODUCT PERFORMANCE CHARACTERISTICS

Rochester Midland is proud to continue its legacy of innovative, environmentally – preferable technology engineered to provide industry leading performance.

Our next generation ‘green’ stripper is highly competitive with conventional chemistry. It’s low foaming & attacks all finishes – ‘green’ and conventional – instantly, whitening by re-emulsifying.

RML’s next generation in green floor strippers is an effective, low-foaming floor stripper that instantly goes to work. Just apply to your old floor coatings and watch the coating whiten, a sure sign of penetrating and dissolving the finish & waxy build-up on floors. Does not contain: MEA, 2-BE, APE, Caustic, EDTA

DIRECTIONS FOR USE

Directions: Do not use undiluted.

Light build up: dilute 1:8 with cool tap water.
Regular build up: dilute 1:4 with cool tap water.

Heavy build up: dilute 1:3 with cool tap water.

Using a mop, generously apply to your floor, allow the solution to stand for 1-2 minutes and agitate by re-mopping or with a low speed machine and a black pad. Use a wet-vac to pick up stripper solution. Rinsing is not mandatory, however, it is recommended.

HANDLING AND STORAGE: Store at room temperature. Keep cap tightly sealed when not in use. Protect from contamination, evaporation and freezing. Keep cap tightly sealed when not in use. Protect from contamination, evaporation and freezing.

Personal Protection: Practice normal hygienic practices after handling. Thoroughly wash hands with soap and warm water after using.

Packaging: Whenever possible, bottles and pails made from recycled plastic (10-25%). Can be recycled where facilities exist. Boxes made from recycled cardboard (94-100%).

TYPICAL PROPERTIES

pH	10.25-10.90
Specific Gravity	0.981-0.997
Color	Light Yellow to Straw Colored Liquid
Odor	Ethereal
Clarity	Clear
Sediment	None
VOC’s (ARB310)	22.95-23.95
Flash point (TCC) 800C (1760F)	

* As per OECD 310 D Test Methods.

** Per WHMIS Hazardous Ingredient List.

Note: Do not leave in contact with flooring substrates longer than 5-minute intervals as tile integrity and/or coloring may be severely or permanently damaged. Do not use on asphalt tiles.

This product meets Ecologo™ Environmental Standard for Hard Floor Care Products (CCD-147) based in its low impact for human and environmental health.
