

Fireside Fellowship:

The Hope of God:

1. There is a different grief that we have for a believer who dies than for an unbeliever who dies. How is it different?
2. Paul says that death is actually something that gives us more than we have when we are alive! Does this change our view of death?
3. How does the sure hope of eternal life change our grief?
4. What are some of the truths of the coming of Jesus that are encouraging in times of loss?
5. The journey of grief was never intended to be walked alone. Do you agree? Why or why not?
