Blue flower runner

Charted from a very old French magazine clipping collection (Dates were from 1886-1893)

156 x 230 stitches

28,3 x 41,7 cm on 14 ct

To be stitched, on aida, or evenweave. Cross stitch, and running stitch.

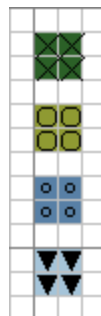

The original called for olive greens, and light \ medium blue. But since the pattern has only four colours, it is easy to change colours to suit your taste.

Here you can see how it would look with pink, and purple flowers.

You can always add more space between the empty spaces to enlarge the runner.
