

**STAY SAFE AND PROTECTED IN THE FIELD**

**Employees Working Alone**

The GPS Safe delivers immediate two-way communication, even from remote locations and harsh environments. It provides hands-free, two-way voice calls in the event of a fall, giving confidence to workers that they are never truly alone in their field of work. Now featuring advanced GPS and Wi-Fi locating services in a rugged casing, durable in the event of hard falls and water submersion.

The GPS Safe Personal Emergency Response System meets the challenges of employees monitoring workers who are alone, giving them reliable activity and emergency updates. No matter the type of risk the job presents, 24-hour emergency communication provides the peace of mind every worker needs.

Advanced fall detection for 24/7 alerts to family and caregivers

Fully mobile for personal safety at home and on the go

Water-resistant to 1 meter (3.3 ft) for 30 minutes. Designed to be worn in the shower

## Lone workers exist in nearly every industry, making them a wide and diverse market of customers

- Hotel, Casino, and Other Service Industry Workers
- Electrical / Telephone Wire and Tower Workers
- Real Estate Agents
- In-Home Care Takers
- Manufacturing Workers
- Park Rangers
- Private Contractors
- Environmental Inspectors
- Security Guards

### No Installation

GPS Safe is easy. The device is pre-configured and does not require any on-site installation. The GPS Safe integrates with existing monitoring systems.

#### Lightweight and Discreet:

The GPS Safe pendant can be worn on a belt or on a lanyard under clothes for easy and hidden accessibility.

#### Rugged Casing:

Advanced durability for shatter resistance up to two meters and water submersion up to one meter for 30 minutes. (IK06 and IP67 ratings)

#### Hands-Free Voice Calls:

The device automatically calls the center when a fall is detected – no need to push a button to receive help.
