PRODUCT ADVANTAGES

- Synthetic detergent with coconut derivatives.
- No Rinsing Required
- Non-corrosive
- Concentrated
- Moderate Foam Generation for use in automatic scrubbers.
- Versatile
- Economical
- Heavy Duty
- Performs well in hard or soft, hot or cold water solutions.
- Safe to use on aluminum and other soft metals.
- Biodegradable*
- Environmentally preferable
- Compatible with all Rochester Midland floor finishes for deep scrubbing.
- No Hazardous ingredients listed on WHMIS Ingredient Disclosure List.
- No nonyl phenol ethoxylates, phosphate or glycol ethers.

DILUTION RATIO

Makes 480 Litres Hi Flo
Makes 224 Litre Lo Flo

Note: That the low flow rate/spray and wipe dilution is twice as concentrated as the high flow rate to ease manual cleaning.

DIRECTIONS FOR GENERAL PURPOSE CLEANING

SNAP! DfE Bio Clean (SNAP Concentrate) may be used as a “Spray and Wipe” cleaner, and for damp mopping. Automatic scrubbing, deep scrubbing prior to floor finish recoating, hand scrubbing or through high-pressure washers and steam cleaners.

DEEP SCRUB APPLICATION

Apply SNAP! DfE Bio Clean (SNAP Concentrate) through scrubber equipped with blue pads. Scrub first pass with vacuum off and squeegee up. Pick up solution with vacuum and squeegee down on second pass. Insure all visible imbedded soil has been removed. Rinse residues before applying floor finish.

PRODUCT CHARACTERISTICS

SNAP! DfE Bio Clean (SNAP Concentrate) is a fortified synthetic detergent designed for use thru an automatic scrubber or mop bucket to clean concrete, stone and ceramic “unfinished” flooring. Also can clean walls, baseboards, painted surfaces, and other washable surfaces. SNAP! DfE Bio Clean (SNAP Concentrate) is a unique formulation that performs equally well in hard or soft, hot or cold water solution.

While rinsing will completely remove dirt, it is not necessary to rinse when using SNAP! DfE Bio Clean (SNAP Concentrate). It does not leave a dulling film like soap cleaners. However, before refinishing floors, the surface should be rinsed with clear water.

TYPICAL PROPERTIES

pH(Concentrate).....	10-11
Appearance.....	Clear, dark purple
Odor.....	Lemon
Specific Gravity.....	1.01-1.04
Flash Point.....	None
VOC% (Method 24).....	2.5-2.7
*Biodegradability Test Method 40 CFR 796.3200 EPA/TSCA	

Mix only with water.
