2019 - 2020 Oakland County Senior Resource Directory

Oakland County Health Division is pleased to provide this directory as a service to the community. Many programs and services were identified to assist you in locating resources that address specific areas of need for senior citizens, their families and caregivers.

Oakland County Health Division does not endorse any agency or service listed in the directory. This is not a complete listing of agencies that may offer senior services. Information is verified up to the date the resource guide was placed on the website. Revisions are made periodically but information may be outdated or change at any time after posting.

Elder Abuse and Neglect

Adult Protective Services

The goal of the Adult Protective Services Program is to assist those persons 18 years or older who have been abused, neglected, or exploited and who are vulnerable and unable to take the necessary steps to correct their situation. A vulnerable adult is someone who because of physical or mental incapacity lacks the abilities required to manage their own property or affairs.

Physical Abuse

Is harm to an adult's health or welfare caused by another person. An example of abuse is: An older woman resides in the home of her son and is being beaten by him.

Psychological Abuse

Is threatened harm in which a person is manipulated, humiliated or otherwise made to feel distress. An older man is told that if he does not stay in his room he will be tied to the chair.

Neglect

Is harm caused when an adult is unable to make safe decisions to care for themselves (self-neglect) or when a caregiver who is responsible for the care of another adult does not provide adequate care or protection. An example of neglect is: A physically disabled man is left in front of the TV all day without a meal or access to toilet facilities.

Exploitation

Is the misuse of an adult's funds, property, or personal dignity by another person. An example of exploitation is: An elderly woman's son is using her money for his own needs without her knowledge or approval.

Adult Protective Services :

All Adult and Children's Protective Services abuse and neglect complaints should be called into the State of Michigan's Centralized Intake line. Reports are confidential and the callers name is not shared with the alleged victim.

855-444-3911 http://www.michigan.gov/mdhhs/0,5885,7-339-73971_7119_50647---,00.html

Emergency Preparedness

Emergency Numbers:

For Police/Fire/EMS

Dial 911

When you call from a land line phone, the 911 dispatcher knows your exact location. When you call 911 from your cell phone, the signal goes to the tower that you are closest to and then sends that call to the dispatch center nearest the tower. The dispatcher will know the location of the tower, but not your exact location. When calling for emergency services from a cell phone, be prepared to give them your exact location, if you are able. If you are not certain of the location you are calling from it is important for you to look around and give the dispatcher as much information about your location as possible such as landmarks like a bank or restaurant.

ICE- In Case of Emergency

Put ICE in your cell phone and make it easier for emergency personnel to contact your family in case of an emergency. Make new contact entries on your cell phone with the words “ICE 1” or “ICE 2” for the people that you want contacted in emergency situations. For example add “ICE 1 Wife” or “ICE 2 Son” to your list with their phone numbers. Make sure these people know your medical history. If you do not have a cell phone, carry a card in your wallet with similar information.

Outdoor Warning Siren:

Oakland County Homeland Security tests the outdoor warning siren system on the first Saturday of each month at 1:00 p.m. Siren tests are **NOT** conducted during December, January or February due to winter weather.

Make an Emergency Kit! Keep it portable, easy to grab and go.

Water: minimum one gallon per person per day. Keep a supply for at least 3 days.

Food: at least a three-day supply of non-perishable items, a manual can opener and some simple utensils

Radio: battery-powered or hand crank. Also consider a NOAA weather-alert radio and have extra batteries for both.

Flashlight with extra batteries

First Aid Kit containing bandages, antibiotic cream, scissors, sanitizer, instant ice pack

Surgical Mask or cotton t-shirt to help filter air

Personal sanitation supplies such as garbage bags, plastic ties, paper products, latex gloves, moist towelettes.

Important family documents including copies of ID, insurance cards, Social Security, bank account and charge card numbers, medical records and a list of prescriptions. Keep in a waterproof container.

Special Items such as prescription medications, pet foods and supplies. You may also need denture items, an extra pair of eyeglasses, hearing aid batteries. Consider adding a change of clothes and shoes, hats, gloves, blankets, extra keys and cash. If you own a cell phone, bring it and its charger.

Make a Plan!

Discuss with your family a safe location where you may all meet in the event you are suddenly displaced from your homes by a disaster.

See the information above under the heading ICE to assist the authorities in contacting your loved ones.

Identify an out-of town contact. In some local disasters it may be easier for everyone to get through to Aunt Millie in California than to call each other across town. Make sure everyone knows who to call.

If you text message, texts may be another way to communicate when phones are down.

Depending on the nature of the emergency, be ready to evacuate if you are told to by authorities. Have your emergency kit ready to take with you. Stay tuned to TV or above radio station for emergency broadcasts and instructions.

Keep yourself up-to-date on flu shots and other immunizations.

Additional planning ideas:

Consider two kits: In one, put everything you will need to stay where you are and make it on your own. The other should be a lightweight smaller version you can take with you if you have to get away.

Wear medic-alert bracelets to help identify your medical disabilities. Order by phone or on line. 888-633-4298 www.medicalert.org

Consider having backup oxygen, wheelchair batteries or other extra supplies pertinent to your own condition in case there is a several-day period of time when you cannot access these supplies. If you depend on electricity for your oxygen supply or to power a ventilator or other life-sustaining equipment, consider purchasing a generator and have a back-up plan for where to go for prolonged outages. Discuss with your local emergency services.

Guardians/Conservators

What is a Guardian?

A **Guardian** is a person who is given authority by the Probate Court to be responsible for the personal and physical well being of an adult who is called a **Legally Incapacitated Individual (LII)**. The Guardian has the same powers and duties over that LII as parents have over their children. A prospective Guardian may be nominated by petition (filed with the Probate Court) or may be named in a will.

When is a Guardian needed?

When the individual lacks sufficient understanding or capacity to make or communicate informed decisions about his or her personal well being because of impairment by reason of either:

- Mental illness
- Physical disability
- Mental deficiency
- Physical illness
- Chronic use of drugs
- Chronic intoxication

How do I become a Guardian?

To become a guardian, you must file a petition, pay the fee, serve interested persons, and appear at a hearing. Generally, anyone may petition to become guardian.

What is a Conservator?

A **Conservator** is a person who is given Probate Court authority to be responsible for the assets (called an “estate”) of an adult, who is called a **Protected Individual (PI)**. A Conservator may be nominated by a petition filed with the Probate Court

When is a Conservator needed?

When the individual is unable to manage his or her property or business affairs effectively because of either:

- Mental illness
- Chronic intoxication
- Mental deficiency
- Confinement
- Physical illness
- Detention by a foreign power
- Physical disability
- Disappearance
- Chronic use of drugs
- Age or physical infirmity

How do I become a conservator?

To become a conservator, you must file a petition, pay the fee, serve interested persons, and appear at a hearing. Generally anyone may petition to become conservator.

Since the above described legal procedures and duties can substantially affect the rights of Legally Incapacitated Individuals or Protected Individuals, as well as to subject the Guardian or Conservator to personal liability, it is recommended that a person who is seeking to be appointed (or who is actually appointed as a Guardian or Conservator) consult with an attorney.

For more information, contact the Probate Court.

Ombudsmen are advocates for residents in long term care facilities and will assist residents and their families in resolving individual concerns about care, services, rights, safety, admission procedures, billing, and other issues. They are able to give assistance with finding nursing homes in your area. They can give information on locations and past Survey results. Ombudsman staff WILL NOT endorse any nursing home, they will give information for you to make an educated decision.

248-858-0012 <http://oakland.michiganlegalhelp.org/> 1200 N. Telegraph Rd., Pontiac, 48341

University of Detroit Mercy School of Law Mobile Law Office <https://www.oakgov.com/lawlibrary>

The Adams–Pratt Oakland County Law Library hosts this clinic two Wednesdays a month from **10:00 a.m. to 1:00 p.m.** This free legal assistance clinic is available to *low income individuals*. Attendees must sign in onsite before **12:30 p.m.** Participation is first come, first served. Law professors, students and volunteer attorneys answer questions about the law, help citizens help themselves to resolve their legal issues, and make referrals to other agencies for non-legal matters. Attorneys meet with patrons in the library which is located in the West Wing Extension of the Oakland County courthouse, Building 14E.

For more information, please call the University of Detroit Mercy School of Law Mobile Law Office at 313-596-0262.

Family Law Assistance Project (F.L.A.P.) Call 248-335-0125 for more information.

Lakeshore Legal Aid and Cooley Law School partner to provide family law legal aid clinics. They are held every other Wednesday. Check in starts at 12:00pm ends at 3pm. You must register in the Oakland County Law Library.

To participate in the clinic you must meet the following criteria:

1. You must be low-income and a United States citizen or eligible alien.
2. You must need legal services in Oakland County or live in Oakland County.
3. Your circumstances must be related to a family law issue such as divorce, custody, parenting time, child support, a Personal Protection Order (PPO), etc.
4. You must not be represented by an attorney.
5. Please bring all documents relating to your legal action to the clinic. This includes all complaints, motions, orders and judgments.

The clinic cannot offer assistance in cases relating to child abuse and neglect.

OAKLAND COUNTY SENIOR RESOURCE DIRECTORY

If you meet all of the above criteria you will be asked to complete some forms to determine whether there is a conflict of interest for our agency staff, verify your eligibility for services and give the attorneys some background information regarding your situation. Any information you provide is protected by the attorney-client privilege.

Participants in the clinic will be considered for further legal services based on our resources, either through our pro bono referral program or representation by staff attorneys. **We recommend you do not sign any legal documents without consulting an attorney.**

Following your attendance at the clinic, you will receive written notification from staff whether your case has been accepted for further services. Typically, these letters are mailed within 7 days of the date you attended the clinic. If your situation requires a more immediate response, we will contact you earlier.

F.L.A.P. holds an Estate Clinic for Oakland County residents over 60 years old. Maximum estate value is \$150,000 for a single person and \$250,000 for a married couple (not including value of residence). Call 248-335-0125 for an appointment.

Medication Disposal

Disposing of medications:

Return unused, unneeded or expired medications to a drug disposal or take-back-program whenever possible. If a disposal program is not available in your area, use the following procedure to dispose of medications: Take them out of their original containers. Mix the medications with an undesirable substance, like used coffee grounds or kitty litter, and put in impermeable, plain containers, such as empty cans or sealable bags. Throw the sealed containers in the trash.

Oakland County is home to multiple safe drug disposal programs. Find one near you at www.oakgov.com/PrescriptionDrugs

Call a local critter control or pest control company. Animal control can only handle domesticated animals and cannot remove wild animals from your home.

Coyotes, Injured Deer, in your yard

Contact the DNR at 800-292-7800 if you are having a problem with a wild animal on your property. Do not leave small pets outside unattended. They can entice coyotes to come into your yard which puts your pet in danger. Citizens experiencing problems with coyotes should contact a licensed nuisance company.

Landowners wishing to remove coyotes from their property may obtain services from a licensed nuisance animal control company. A list of licensed nuisance control companies can be found at www.michigan.gov/wildlife
If a coyote presents an immediate danger, the resident should contact their local Police Department by calling 911.

General Clinic hours:

Monday, 8:30am to 6:00 p.m. and Tuesday thru Friday, 8:30 a.m. to 5:00 p.m.

Adult immunizations available include

- Hepatitis A
- Hepatitis B
- HPV
- Influenza
- Measles/Mumps/Rubella (MMR)
- Meningococcal
- Pneumococcal (pneumonia) vaccines
- Tetanus/Diphtheria (Td)
- Tetanus/Diphtheria/ Pertussis (Tdap)
- Varicella
- Zoster (Shingles)

Fees for each vaccine vary and are not refundable. There is an additional \$7.00 administration fee per vaccine. Call the Nurse-on-Call at 800-848-5533 for more information on approximate costs and payment options.

Other providers of immunization services

Contact your medical provider about immunizations they provide in their office. Consult with their office about price, availability and insurance coverage.

Some vaccines are available at local pharmacies. Consult with the pharmacist about availability, cost and insurance coverage.

Travel Immunizations

Travel immunizations may be needed along with the routine immunizations mentioned above for travel to certain areas of the world. The types of vaccines required will depend on where you are going, what you will be doing and where you will be staying.

Immunizations required for travel outside of the United States may be obtained from a travel clinic. For travel clinic information, contact the Nurse-on-Call at 800-848-5533 or 248-858-1406; press option 1

Plan ahead!

- Vaccines may need to be taken days, weeks or even months before travel to have the best protection
- It could take 2-3 weeks to get an appointment with a travel clinic and talk with your doctor before you travel

Typhoid

This vaccine should be given a minimum of 2 weeks before you travel. This is spread through contaminated food and water. Learn more about safe foods and beverages and observe good hygiene and cleanliness practices.

Yellow Fever

This is spread through the bite of an infected mosquito and found in certain parts of Africa and South America. A certificate of vaccination is needed and does not become valid until 10 days after being vaccinated.

Japanese Encephalitis

This is spread through the bite of an infected mosquito and occurs mainly in rural parts of Asia. The vaccine is a 2-dose series with doses spaced 28 days apart.

Malaria

This is spread through the bite of an infected mosquito. You will need to take a prescription medication before, during and after your travel. A doctor can help you decide which medicine is right for you and other steps you can take to prevent malaria.

Other vaccines that may be recommended or required for travel to certain countries include: Polio, Meningitis, Rabies or Cholera.
