- Interest rate buy-down financing
- Save money on energy bills
- \$0 down, followed by customized monthly payments
- Streamlined process for project up to \$250,000¹
- Most credit decisions within 2 hours
- No financials needed for commercial transactions under \$250,000¹

**0% Financing for
24 & 36 month term!**

How it Works

0% Financing Program Requirements:¹

- Accounts must average 110KW or higher annually
- Max amount of the buy-down is \$150,000 (blended rates for larger projects)
- Subsidy must always be less than incentive
- Subsidy Cap = addition of no more than \$0.045 kWh
- Project must comply with all requirements of the National Grid program
- Credit applications must be received by July 31, 2020

1 Financing and stream-lined application decisions subject to credit parameters. Neither Ascentium Capital nor National Grid is the agent of the other. Ascentium Capital, not being the manufacturer, seller or distributor of the property being financed, makes no representation or warranty concerning it, including any representation or warranty related to energy efficiency, cost savings or positive cash flow related thereto. Financing described herein is available only for National Grid customers' project to purchase qualifying energy efficient equipment, fixtures, systems and other measures. All projects must receive prior approval from National Grid. Incentive program is only available until the funds in the National Grid program have been exhausted.
