Shelly Koether
440 Clam Dr.
[REDACTED]
[REDACTED]

Bio: Hi, I'm Shelly Koether and I'm new to the community. We moved into our place on Clam in April of 2020. We are building our permanent residence at 123 Thresher Fish.

I am not running for a specific position, I am open to doing whatever is needed for the community. Your vote will choose that.

My reason for wanting to be on the board is to help the community.

I don't know but a few details of the past and those don't really matter.

What matters is what we do going forward. We have a lot of problems to address from drainage to roads to pool fixes and that's just the beginning.

With the right team in place, open books and the communities support, I truly believe we can accomplish our goals. It won't happen overnight but in time we can get there.

I have 30+ years experience working and consulting in Engineering, Information Technology, Project Management and Business Development.

I was on the Board of the International Microsoft Channel Partners for 6 years.

My LinkedIn profile is: <https://www.linkedin.com/in/shellykoether>
