

Emily Lesniewski- Veterinary Technician

Emily has lived in Wisconsin all her life. In 2015 she completed her degree in Veterinary Technology and has worked with companion animals for the last 5 years. Some of her veterinary interests include surgery and exotics.

Emily recently moved to the Fort Atkinson area with her husband Bryan, a golden retriever named Ruby, and her cat named Crow. When she is not at work, Emily enjoys cross stitching and playing video games.

One thing Emily enjoys about working in a vet clinic is to be able to work with all animals and learn new skills in order to be able to do more for them.

Welcome to our team Emily! We are glad you've moved to the area, and have chosen to partner with us in providing high-quality care to the pets in our community!
