

PEAK SWIVEL CUSHION

- Consisting of two padded disks held together by a rotating plate, this swivel cushion from Peak is a handy transfer aid that is both comfortable and functional.
- The bottom layer has a nonslip material that holds it steady while the user can easily rotate on the top layer, reducing the need to twist and swing your body weight around as you transfer out of bed, a car seat, or even a dining chair.
- Lightweight and easily maintained, it is very transportable and can make standing from a lying or seated position that much easier.
- Eases the strain on the back, hips and knees
- Non slip base prevents movement of cushion
- Quilted top panel for extra comfort
- Swivels 360 degrees, suits most vehicles and is easy to install

Warranty
