

Fireside Fellowship:

The Presence of God:

1. How does knowing that God will bring about true justice help you when you are suffering at the hands of evil and wicked people?
2. Does knowing that God has the timing of Christ's return already planned help you to remain stable in your faith in the midst of the many theories about His return?
3. Why should we be praying for the success of the gospel and against the activity of satan in the world?
4. Disruption in the church is one of satan's plans to destroy the witness of the church for Christ. How does Paul say we should deal with disruptive disciples?
5. Paul prays for the peace and the presence of God to be evident in the lives of disciples of Christ. How are those present in our own life?
