

# NEWSLETTER

*Spring 2022 Issue*

The Nature Center has been blanketed with snow and frigid temperatures since January of this year, but soon the weather will turn warmer and with that nature will begin to grow again! Soon we will turn from white to brown and then the familiar green of plants will begin popping up all over the forest floor. It is slow at first, but then before you know it we are surrounded by all kinds of colors as flowers bloom and buds appear on trees. Being up north all winter makes you appreciate spring that much more. Minna's writing within this Newsletter touches on all that spring has to offer after a long winter.

As this is the first Newsletter of the year, I want to thank all of you for supporting the Friends of the Nature Center with your membership. We had a terrific year in membership growth, which will allow us to support the Nature Center with enhanced programming, facility improvements, and so much

more. Members, donors, sponsors, and volunteers are the backbone to our success! Thank you to everyone for making 2021 a great year!

The Board and Nature Center staff are looking toward a great year in 2022. Plans are already beginning for our Night for Nature, Benefit Auction, and Autumn Festival. And, oh so much more as programs are happening every weekend at the Nature Center and will be happening almost daily when summer comes! So please plan on visiting us this year and bring a friend or someone who may be visiting you. Come for a hike, one of our educational classes, or just to check out our displays within the Nature Center. We would love to see you soon!

Andy Kane  
*Board President*

# Look to the Woods for Signs of Spring

*by Mrs. James A. Common*

*Reprinted with permission of the Watertown Daily Times.*

March may be cold and windy but the skies of March are intense in their blueness and the air is extraordinarily light and clear. March whisks away the debris of winter with its bellows, and we find ourselves reflecting its moods. Every sunny day invites us to the outdoors. Let the countryside emerge one whit from under its frozen roof and they are right at hand.

The pools in the lowlands may be icebound today and tomorrow, but under the noonday sun they become damp around the edges and small pools of dark water appear here and there upon their surfaces. A bit of land is blown bare of snow and almost at once the migrating birds are there eating weed seeds.

Sap has commenced to run in the sugar maples and the poplar show signs of spring due to the fact that the bark of their twigs turns yellow-green long before a bud swells. In the swamp the bark of young aspens is a much brighter green, and the osiers a gayer red than they will be in summer.

The tops of the willow trees along the river banks are decidedly yellow, almost golden. The spray of beech trees has taken on a sheen like that of fresh varnish. The bark of hawthorn branchlets is pink, and the great limbs of the soft maples show now for the only time in the year a real

reason for the common name of the tree, white maple.

Any woods is now a symphony of color – plum branches are plum-color; pin cherries gleam red in the light; elms look yellow-green; buds of hickories are cream-color.

Already out of doors certain bees and flies have thawed out. What a marvelous thing this hibernating is. A bee, a wasp, a caterpillar, a tiny fly, a spider, frozen solidly and having taken no food for months, now can move about again, can fly and can eat. It is a wonder of nature greater than any invention of man.

A brown and orange woolly-bear caterpillar that has been coiled in a ball beneath a bit of bark, now feels an urge to uncoil itself and start out a-humping along on its travels. We meet it on the road, by a path, a-top a snowdrift or in the fields. Apparently the creature is very intent on getting somewhere, and quickly. Soon it will roll itself up again in a cocoon and sleep for a few weeks more. Why it waits until spring to weave its cocoon is just another thing we cannot understand.

Squirrels are very active in the woods. They chatter all about and chase each other from tree to tree. They have not passed the winter exactly as the insects did, for they did not freeze, but they have been fast asleep, sometimes for days at a time.

In flower gardens too are signs of spring, even before the tree buds really swell. Tiny tips of green are poking out where snowdrops, crocuses and daffodils will be in bloom almost before we know it. There is a hint of color in the center of the primrose clump, while out in the woods and fields the frost is heaving things upward as it starts to leave the ground. In woods and gardens are some woolly knobs just showing where soon hepaticas will be in bloom.

And so outdoors tells us, each thing in its own way, that spring is nearly here. Some day very soon a loud “Cheer-up, cheer-up” from a robin on the roof tree will announce it has come again. ■

---

## From the Director

Dear Friends and Colleagues,

We've had a hearty winter with several good snowfalls and weather perfectly suited to cold-weather recreation. Nature Center visitors have been enjoying snowshoeing and cross-country skiing on our trails. Eel Bay has been a popular ice fishing destination – with many sub-zero days attracting diehard outdoorspeople. We conducted our second annual *Ice Fishing Clinic* led by local fishing guide Aziel Snyder and NY State Parks Stewardship Specialist Peter Zimmer. Thank you, Aziel and Pete, for your expertise! See photos of the clinic in our Donor Spotlight on page 4.

In January we welcomed two new SCA Members: Aliyah Panahi from California and Katriana Maslin from Indiana! They've hit the ground running, and have eagerly immersed themselves in learning about the Nature Center. Read more about Aliyah and Katriana on the next page.

Wellesley Island State Park opens for the season on Friday, May 6<sup>th</sup>, and the Nature Center will be open seven days a week through October! The annual *I Love My Park Day* is the following day on Saturday, May 7<sup>th</sup> – join us for spring cleaning and getting the Nature Center building and grounds ready for the busy season. Also, as you dive into your own spring cleaning and decluttering, keep our June 21<sup>st</sup> *Benefit Auction* in mind (see page 7 for details).

The snow is thawing and the North Country's "mud season" is approaching. As the weather gets warmer, we hope to see many of you back on the trails and on the river!

Gabriela Padewska  
*Nature Center Director*

*Silhouettes of migrating geese punctuate the March sky*

## For Your Consideration

### **'Spongy Moth' Adopted as New Common Name for *Lymantria dispar***

There is a new common name for *L. dispar*, formally known as gypsy moth – just in time for them to hatch this spring! As many of you may recall, Wellesley Island was overrun by with these invasive insects last summer. Read the press release from the [Entomological Society of America here](#).

## Welcome New *Student Conservation Association (SCA)* Members!

We are thrilled to introduce our 2022 Student Conservation Association (SCA) members: Aliyah and Katriana! New York State Parks partners with the SCA to build the next generation of conservation leaders. Welcome aboard!

### Aliyah Panahi

Hi everyone! My name is Aliyah, and I am this year's SCA Gardening Intern for the Nature Center. Southern California is my home; however, I discovered my love for sustainable agriculture and the outdoors during many summers in rural Missouri on my grandparents' honey farm. I am here to learn the ins and outs of environmental education, with a focus on sustainable land management. During my time on Wellesley Island, I hope to gain a wide range of experience and skills that will easily transfer over to an interpretive position with the National Park Service. One thing I am especially looking forward to this year is participating in Autumn Fest! In my down time I love to hike, garden, read, and go to the beach.

*Californian Aliyah builds her first snowman!*

*Aliyah (left) and Katriana*

*Kat leading the "Nature's Paintbrush" program*

### Katriana Maslin

Hello! My name is Katriana (Kat for short). I'm from Indiana, and I'm one of the new SCA interns! I'll be working with the animals at the Nature Center this year. I've known I wanted to work in biology since I took an "Introduction to Aquatic Biology" course my senior year of high school, and I graduated from the University of Tennessee at Martin with my BS last year! I'm very excited to be here, and I'm looking forward to learning and building my skills while I give back to the community! I enjoy exploring the outdoors, reading, and visiting new places. I love the snow, and I grow quite a few houseplants. When you visit the Nature Center this summer, come say hi! I'd love to meet you.

**Donor Spotlight: Snyder Outdoors and Restoration**

*Parker (right) pulls up a 27-inch pike with Aziel's guidance*

Thank you to local fishing guide, Aziel Snyder, for donating his time and talent to lead our *Ice Fishing Clinic* for a second year in a row! February 5<sup>th</sup> was a beautiful sunny day with temperatures in the teens. We had fourteen people come out to learn this winter sport. Aziel helped us successfully pull up a 27-inch northern pike!

Check out [Snyder Outdoors and Restoration](#) to book Aziel for a private fishing charter on the St. Lawrence River – with optional shore dinner!

*Aziel (left) baits hook on tip-up*

*Participants gather for Ice Fishing Clinic on frozen Eel Bay*

# Spring Events

Program size may be limited.  
Preregistration recommended.  
Please call **(315) 482-2479** to register.  
*Face covering encouraged when indoors.*

## APRIL

### NEST BUILDERS

**Saturday, April 2 // 2:00pm**

Would you like to help our native birds? Assist our feathered friends by making a nest builder! A nest builder is an ornament on a tree that you fill with soft, natural materials. This will help nesting birds find the right things to build their nests.

### STORY WALK

**Saturday & Sunday, April 9–10 // 9:00am–2:00pm**

Explore the trails while traveling through a storybook! Take a self-paced hike through woods reading pages of a book that have been placed along the trail.

### OSPREY WATCHING

**Saturday, April 16 // 10:00am**

Ospreys migrate up to the North Country to return to their nests. Join us on a guided hike along our shoreline to see if we can spot these beautiful birds.

### EARTH DAY at Zoo New York

**Saturday, April 23 // 10:00am–3:00pm**

Come join the Earth Day celebration at the Thompson Park Zoo! Learn about the natural world around you and the importance of protecting our natural resources. Discover new places and ways to enjoy the outdoors. There will be numerous family friendly activities and many different organizations at the event, including the Nature Center! For additional information, please call the Thompson Park Zoo at (315) 782-6180.

### ARBOR DAY at TILT's Sissy Danforth Rivergate Trail

**Saturday, April 30 // 10:00am–2:00pm**

Celebrate Arbor Day and the Thousand Islands Land Trust' (TILT) 9<sup>th</sup> Annual "For the Trees" Celebration by planting trees at the S. Gerald Ingerson Preserve along the Sissy Danforth Rivergate Trail. Bring the whole family to get their hands dirty! There will be numerous family friendly activities, workshops, games, and exhibits from TILT and many different organizations, including the Nature Center! For more information, please visit [tilandtrust.org](http://tilandtrust.org) or call (315) 686-5345.

---

# MAY

## I LOVE MY PARK DAY

**Saturday, May 7 // 9:00am—Noon**

Show your Nature Center some love! Volunteer to spruce up the Nature Center for spring and another busy summer season. This is the day when we get out our mop buckets, sponges, garden trowels, rakes, and clippers, and work to beautify our Nature Center. Preregistration is required. To preregister visit [ptny.org/ilovemypark](http://ptny.org/ilovemypark) or call the Nature Center at (315) 482-2479.

## LOON MIGRATION GAME

**Saturday, May 14 // 10:00am**

The common loon is one of many birds that migrates to the North Country. Migrating birds have a lot to deal with traveling long distances. Come play this interactive life-sized board game and learn about the hazards of migrating.

## PICNIC HIKE TO THE NARROWS

**Saturday, May 21 // 11:00am**

Pack a lunch and join us for a hike to the Narrows! We will sit overlooking the St. Lawrence River and enjoy a picnic lunch. This is a 2.5 mile roundtrip hike over steep and varied terrain.

## NATURE “DRAWING FROM MEMORY” GAME

**Saturday, May 28 // 2:00pm**

Think you have a good memory? Come test your memory skills on our trails. We will take a short hike, find an interesting thing to look at, walk back to the Nature Center, and put your memory to the test. Sound easy? Come try it, it is not as easy as it sounds. Great for all ages.

# JUNE

## BARK ART

**Saturday, June 4 // 2:00pm**

Ruff, smooth, jagged are all different ways to describe tree bark. Take a walk in search of different textures to create a unique work of art.

## SWALLOW-WORT PULL

**Saturday, June 11 // 10:00am—12:00pm**

Help us protect our native habitat by removing an invasive plant species called swallow-wort.

## FROG WATCHING

**Saturday, June 18 // 10:00am**

Join us for a hike to our wetlands in search of bullfrogs, spring peepers, and green frogs! Please wear pants and waterproof hiking boots. We will be exploring off-trail for a chance to spot these awesome amphibians!

## FREE FISHING DAY

**Saturday, June 25 // 10:00am**

Join us on the Nature Center's dock on Eel Bay to celebrate Free Fishing Weekend! No fishing license required to attend this class. Learn the basics of freshwater fishing. Equipment will be provided; bringing your own bait is appreciated.

2ND ANNUAL

# FRIENDS OF THE NATURE CENTER BENEFIT AUCTION

**TUESDAY, JUNE 21  
6-9 PM**

## DONATION DROP-OFF

### Two Locations

1. **Wellesley Island State Park:** 44927 Cross Island Road (at parking lot before toll booth)
2. **Town of Alexandria Bay Recreation Center:** 39 Bolton Ave., Alexandria Bay

### Dates & Times from 5/31-6/19

Every **Tuesday**, 5:00-7:00pm

Every **Saturday & Sunday**, 10:00am-1:00pm

***Volunteers will be there to assist you at drop-off***

*Deepening your cottage?  
Clean out and donate  
for a good cause!*

### Donate

New or gently used:

- household items
- kitchenwares
- lawn & garden supplies
- working electronics
- antiques

***For questions or to request pickup: (315) 482-2479***

## FACEBOOK LIVE AUCTION **Tuesday, June 21, 6-9 pm**

*Preview Days at Alex Bay Rec Center: Saturday 6/18, 10:00am-1:00pm*

*Sunday 6/19, 10:00am-4:00pm*

### How to Bid:

1. Log onto Facebook. Search "Don Peck Auctioneer" and click on his page.
2. Live auction will begin at 6pm, click on video to expand.
3. Place bids in the "write a comment" section and hit enter. Good Luck!

**Pick up:** Wednesday & Thursday, June 22 & 23, 1:00-7:00pm @Alex Bay Rec Center

**AUCTION SERVICES DONATED BY DON PECK, AUCTIONEER**

[www.facebook.com/Don-Peck-Auctioneer-110239281142170](https://www.facebook.com/Don-Peck-Auctioneer-110239281142170)

**We're Hiring for the Summer!**

---

New York State  
Parks, Recreation and  
Historic Preservation

student  
conservation  
association

The Nature Center and Wellesley Island State Park are hiring for summer seasonal positions! Individuals interested in environmental education, visitor services, gardening, trail work, or maintenance can apply by filling out an [Employment Application](#) and emailing to [WellesleyIslandStatePark@parks.ny.gov](mailto:WellesleyIslandStatePark@parks.ny.gov). Questions? Please, call Wellesley Island State Park at (315) 482-2722.

The SCA and New York State Parks seek enthusiastic conservationists to provide critical environmental education on public lands. The Nature Center is looking to fill an Environmental Educator position with a concentration in social media and communications. This 5-month position runs from May 15 – October 15. Housing is included. Visit [theSCA.org](http://theSCA.org), or call the Nature Center at (315) 482-2479 to learn more.

Do you want to intern with three local environmental organizations this summer? Become the next Kenneth Deedy Environmental Steward! Experience working with Save the River (STR), Thousand Island Land Trust (TILT), and the Minna Anthony Common Nature Center. Learn more at [tilandtrust.org/careers/current-opportunities](http://tilandtrust.org/careers/current-opportunities). The deadline to apply is March 31, 2022.

---

**Save the Date**

---

*A Night for Nature*  
*Thursday, July 14, 2022*  
*6pm–9pm*

*Complimentary*  
*beer • wine • hors d'oeuvres*

*Live music*

*We look forward to seeing you!*

*Feelin' In Flight*
