

# Pray on the Way

Dear Pastor

Enclosed is a covenant with God and prayer reminder that HE put on my heart last fall. After discussing the idea with several individuals, a small group of Bible-believing Christians, and Pastor Norris Belcher of Church of the Open Door, Westminster, Maryland, we believe the Lord is directing us to share it with others pastors and Christian workers.

Believing that only God's intervention can turn our nation around, we have begun an initiative Called Pray on the Way to encourage born-again Christians to pray for the United States daily. The concept is for those who willing to covenant with God (See enclosed Pray on The Way: A Covenant with God) to pray every day for the United States of America to have a small-time reminder to hang in their vehicles or their homes. Each time the reminder is seen a quick prayer is offered for God's intervention in whatever is the Lord puts on their heart at that time. The intent is to get those who believe the Bible to follow the instructions in II Chronicles 7:14. Get their hearts right with God, and bombard the gates of Heaven with prayers for the needs of our country.

To get the initiative started, a local retired artist-designed and donated the rearview mirror hangers picture below. We do not anticipate that one artist will be able to produce enough reminders for all those requesting them. The artist has authorized interested churches to replicate her design or to modify it to meet their churches' needs with the understanding that no profit will be made from the Reminders.

It is our prayer that many churches will join the initiative. Perhaps your church has crafters, artists, Metalworkers, or someone who can create reminders for your church members and other believers who wish to participate.

The Pray on the Way: A Covenant with God can be duplicated and utilized as you see fit.

We would be delighted to hear that you are joining us as we pray for the salvation of our nation on a personal, church, and national level.

For the salvation of our nation,

Jennifer Reed and Pray on the Way Committee
