

INVACARE® CANADA
Scooters

Yes, you can.®

Yes, you can.®

Invacare Canada's family of scooters features a complete collection of mobility devices suitable for various needs and requirements:

Colibri™ 3-Wheel & 4-Wheel Micro-Portable Scooters

The latest addition to the Invacare family of scooters offering three platforms with two battery and wheel sizes, along with interchangeable colour panels for personalization.

Leo™ 3-Wheel & 4-Wheel Mid-Sized Scooters

The perfect indoor/outdoor scooter. Compact enough to navigate small spaces, while offering the range and comfort benefits of an outdoor scooter.

Pegasus 3-Wheel & 4-Wheel Scooters

Sleek, with a European edge, the Pegasus scooters are ideal for comfortable outdoor travelling over extended distances.

Comet 4-Wheel and 4-Wheel HD Scooters

Robust models built for outdoor travel over any terrain. Increased weight capacities and unique suspension systems are key features.

Colibri™ 3 & 4-Wheel Micro-Portable

Invacare® Colibri™ micro-portable scooters come charged with the latest in comfort, convenience and design features. The three-wheel model provides an unparalleled turning radius and additional foot room, while the four-wheel models provide more robust platforms. All three models come standard with a powerful 200 watt motor and the ability to personalize it with the choice of five interchangeable colour panels.

Features

- Three platforms with different wheel and battery options: 200x50 three-wheel 12 Ah model, 200x50 four-wheel 12 Ah model or 210x65 four-wheel 18 Ah model
- Patented LiteLock™ technology enables easy assembly and disassembly for travel
- Enhanced design through personalization options with the choice of five interchangeable colour panels, durable double-spoke black wheels and stylish front basket
- Adjustable three-position tiller with delta steering handle
- Premium padded vinyl driver seat featuring width and angle adjustable arms and stylish accent stitching
- 12 Ah and 18 Ah dual battery pack options offer convenient charging through the front port and up to a 16 km travel range
- Standard built-in safety features include rear anti-tippers, front and rear mounted reflectors and brake disengagement lever
- 300 lb. weight capacity

Colibri™ Scooter Features

Features

Choice of Five Colour Panel Sets

Personalization through the choice of five interchangeable colour sets available in Jasper Red, Sunstone Orange, Marble White, Jade Green and Sapphire Blue.

LiteLock™ Technology

Exclusive to Invacare, the LiteLock system allows you to simply remove the battery box to disengage the locking mechanism for easy disassembly of the scooter into manageable components for travel.

Comfortable and Adaptable

Three-position tiller with delta steering provides a comfortable driving position while the padded vinyl driver's seat features width and angle adjustable arms and stylish accent stitching.

Standard Safety Features

Rear anti-tippers, front and rear reflectors and a manual disengaging device are standard on the Colibri scooters. The reinforced frame enhances the durability of the scooter through daily travels.

Dual Options for Tires and Batteries

Sleek double spoke black rims are dressed with non-marking low profile tires and available in 200x50 and 210x65 sizes. 12 Ah and 18 Ah battery options provide convenient charging on and off the scooter and a travel range of up to 16 km.

Leo™ 3 & 4-Wheel Midsize Scooters

Leo 3-Wheel and 4-Wheel Midsize Scooters

Model no. LEO-3B (3-Wheel Blue)
Model no. LEO-3R (3-Wheel Red)

Model no. LEO-4S (4-Wheel Silver)
Model no. LEO-4B (4-Wheel Blue)
Model no. LEO-4R (4-Wheel Red)

Available in three and four-wheel platforms, the Leo scooter is the ideal indoor/outdoor scooter due to its compact size and long range capacity. Engineered with the highest regards to safety, function and quality, the Leo scooter is the optimal choice for those who value their independence. Features such as delta-steering handlebars and an adjustable seat ensure that any journey on the Leo scooter is a comfortable one.

Features

- 36 Ah batteries are standard and provide up to a 36 km range
- Simple, tool-free disassembly of the scooter into five, lightweight parts makes it perfect for travel
- Compact size makes the Leo easy to control and maneuver
- Built-in splash guards protect the motor and electronics
- Black, pneumatic tires are non-scuffing and provide a soft ride
- Two-step disengaging lever guards against unintentional disengagement out of drive mode
- 360° swiveling seat is height adjustable and features width and angle adjustable arms and detachable seat upholstery with stylish accent stitching
- Full lighting system. Efficient LED lights increase visibility and improve scooter range
- Infinite adjustable tiller with delta-steering handle
- Easy to use, lit control panel with programmable audible and visual signals
- Dual rear accessory ports allows for the use of multiple accessories at one time
- 350 lb. weight capacity

Leo™ Scooter Features

Features

Infinite Tiller Movement

Adjusts easily to ensure a comfortable driving position and to allow for easy control panel viewing.

Comfort Seating with Detachable Upholstery

Height adjustable seat features width and angle adjustable arms. Seat upholstery detaches for easy cleaning or replacement.

Brake Light/Indicators

Rear brake lights warn others that the scooter is slowing down. Intelligent electronics shut off the left and right direction indicators automatically after 30 seconds.

Intuitive Control Panel

Designed to ensure easy and accurate operation with domed buttons, LED lights and audible signals as well as a lit battery indicator showing remaining battery power.

Splash Guards

Built-in splash guards protect motor and electronics and help prevent unnecessary servicing.

Pegasus 3 & 4-Wheel Scooters

Model no. PEGASUS3S-8

Model no. PEGASUS4B-8

Pegasus 3-Wheel and 4-Wheel Scooters

Model no. PEGASUS3S-8 (3-Wheel Silver) Model no. PEGASUS4S-8 (4-Wheel Silver)
Model no. PEGASUS3B-8 (3-Wheel Blue) Model no. PEGASUS4B-8 (4-Wheel Blue)
Model no. PEGASUS4R-8 (4-Wheel Red)

Stronger, Smarter, Safer. The Pegasus three and four wheel scooters combine safety, reliability and comfort into one perfect package. Whether you enjoy a daily trip to the mall or travelling further afield, the Invacare Pegasus offers the performance, freedom and independence you want and deserve.

Features

- Invacare's Speed Reduction Technology (SRT) automatically adjusts speed to safely negotiate corners
- Powerful 4-pole motor provides reliable performance and speeds of up to 12 km/h
- Intelligent Lighting System features auto cancelling turn signals and brake warning lights
- Dual bulb headlamp and large tail lights provide increased visibility during the day or at night
- Intuitive control panel offers easy to read LED illuminated controls and domed buttons
- Contoured captain's chair is height adjustable and offers enhanced multi-position recline and armrest width and angle adjustment capabilities
- Reinforced front and rear bumpers for improved durability
- Adjustable rear and front spring suspension provide smooth travel on uneven terrain
- 11" black tires with polished aluminum rims are capable of climbing obstacles of up to 5"
- Two-step brake release lever prevents accidental disengagement out of drive mode
- Built-in splash guards protect the motor and electronics
- Dual rear accessory ports allows the use of multiple accessories at one time
- 330 lb. weight capacity

Comet 4-Wheel Scooters

Comet 4-Wheel Scooters

Model no. COMET4S (Silver)
Model no. COMET4B (Blue)

Model no. COMET4R (Red)

The Comet is packed with features to ensure a safe, reliable and enjoyable drive. Comet's impressive performance features, insightful engineering and industry-leading safety enhancements have been carefully designed with the driver in mind. By combining rugged outdoor capabilities with ergonomics and stylish design, the Invacare Comet truly is the ultimate solution for your mobility needs.

Features

- Invacare's Speed Reduction Technology (SRT) automatically adjusts speed to safely negotiate corners
- Powerful 4-pole motor provides reliable performance and speeds of up to 15 km/h
- Intelligent Lighting System features auto cancelling turn signals and brake warning lights
- Dual bulb headlamp and large tail lights provide increased visibility during the day or at night
- State-of-the-art control panel offers easy to read LED illuminated controls
- Contoured captain's chair with stylish accent stitching features enhanced multi-position recline, armrest width and angle adjustment capability and depth adjustment
- 4-wheel independent adjustable suspension provides smooth travel on uneven terrain
- 13" tires with polished aluminum rims capable of climbing obstacles up to 5"
- Two-step brake release lever prevents accidental disengagement out of drive mode
- Built-in splash guards protect the motor and electronics
- Dual rear accessory ports allows the use of multiple accessories at one time
- 390 lb. weight capacity

Comet HD 4-Wheel Scooter

Model no. COMET-HD

Comet Heavy Duty 4-Wheel Scooter

Model no. COMET-HD (Slate Grey)

The Comet HD was developed in conjunction with therapists to ensure optimum seating comfort and support. The HD accommodates users weighing up to 486 lbs. and has a 26" wide seat with a reinforced seat column and armrests. The Comet HD's unique suspension system and pneumatic lumbar support further enhances the driving experience over outdoor terrain.

Features

- Invacare's Speed Reduction Technology (SRT) automatically adjusts speed to safely negotiate corners
- Powerful 4-pole, 600 watt motor provides reliable performance and speeds of up to 10 km/h
- Reinforced armrest and seat column produce an increased weight capacity of 486 lbs.
- Intelligent Lighting System features auto cancelling turn signals and brake warning lights
- Dual bulb headlamp and large tail lights provide increased visibility during the day or at night
- State-of-the-art control panel offers easy to read LED illuminated controls
- Comfortable, angle adjustable seating with pneumatically adjustable lumbar support
- Unique suspension system which allows for simple independent user adjustment
- Two-step brake release lever prevents accidental disengagement out of drive mode
- Built-in splash guards protect the motor and electronics

Pegasus, Comet & Comet HD Features

Features

Automatic Speed Reduction Technology

Speed reduction feature automatically slows the scooter for safe cornering.

Dual Throttle Positioning

Two level throttle allows users to achieve the optimal driving positioning and prevents hand fatigue during long trips.

Comfort Seating

360 degree rotating seat adjusts laterally, vertically, and is angle adjustable 95°-145° (Pegasus/Comet) or 95°-120° (Comet HD). Arms are angle, width and height adjustable.

Battery Level Indicator

Accurately displays remaining power in battery. Intelligent electronics sound a low battery audible alert indicating the need to find a charging source.

Dual Bulb Headlights

Full lighting system with dual bulb headlights provide increased visibility.

Intelligent Lighting System

Brake lights automatically engage upon the release of the throttle to warn others that the scooter is stopping. Signal lights automatically disengage after 30 seconds.

Pegasus, Comet & Comet HD Features

Features

Adjustable Tiller with Delta Handle

Infinitely adjusts to achieve the optimum driving position. Tiller contains easily accessible charging port and ignition controlled by cut ignition key.

Control Panel

LED lights and audible signals indicate when each function is activated. The electronics are fully programmable.

Secondary Brake Feature

Hand operated secondary front braking system for quick, safe braking.

Tiller Storage

Built-in pocket on the tiller offers a secure space for a phone or wallet and provides an attachment point for the beverage holder accessory.

Splash Guards

Built-in splash guards protect motor and electronics and decrease unnecessary servicing.

Adjustable Suspension

Pegasus - Dual Rear Adjustable and Front Spring Suspension.
Comet - Four Wheel Adjustable Independent Spring Suspension.

Transportation Tie Down Brackets

Welded to the frame (front and rear)

Front and Rear Bumpers

Increase the durability of the scooter and provide protection for the shrouds and frame.

Warranty Two year limited warranty against manufacturing defects (excluding upholstered materials, padded materials and tires/wheels). Six months on batteries (Colibri, Leo). Manufacturer's warranty does not cover normal wear.

*Travel range will vary depending on user weight, speed, battery charge and terrain.

** Weight limitation is total weight (user weight plus any additional items that the user may require (back pack, etc.). Example: If weight limitation of the scooter is 350 lbs and additional items equal 25 lbs, subtract 25 lbs from 350 lbs this means the maximum weight limitation of the user is 325 lbs.

Scooter Accessories

Accessories

Lockable Front Box

Mounts onto the front of the tiller to secure valuables.

Features a 10 lb./4.5 kg capacity.

Model nos. ACC260 (silver), ACC270 (blue), 1551638 (red), 1537710 (slate grey)

For Leo, Pegasus, Comet and Comet HD scooters only

Mirror

Removable mirror is adjustable and can be mounted on the left or right side of the control panel.

Model no. ACC250

For Leo, Pegasus, Comet and Comet HD scooters only

Scooter Beverage Holder

Attaches to the tiller pocket to hold a bottle or can and folds away when not in use.

Model no. 1521594

For Pegasus, Comet and Comet HD scooters only
