

INSULATED MUG WITH TUMBLER LID

- The Insulated Mug with Lid features an oversized handle with plenty of hand space to ensure a firm, secure grip to reduce the risk of dropping and subsequent spills.
- This non-spill mug aids individuals with limited hand function or weak grip.
- For additional safety, the mug is made to prevent condensation, reducing slippage between the hands.
- The durable polypropylene mug acts as an insulator and helps to keep cold drinks cold and hot drinks hot. The double walled vacuum insulation technology helps keep hot beverages warm for 6+ hours and cold for 12+ hours, ensuring you can enjoy your iced tea or morning coffee longer.
- Both the mug and lid is dishwasher safe up to 82 degrees Celsius.
- The durable, lightweight polypropylene construction of the mug is BPA, phthalates, and latex free
- Not recommended for use in the microwave
- The insulated mug is dishwasher safe.
