## “The Power Corner”

Welcome to “The Power Corner”, a monthly article about outdoor power equipment with a look into the past and future of outdoor power equipment. Last month we introduced you to our article and we are glad to see some response to it. We see that some of you are pretty smart when it comes to trivia. Congratulations to those of you who answered with the correct answer and thanks for the support that we received.

The answer to September’s trivia article was the “Blade Sharpener”. Patented in June of 1914, “this invention applies to a novel and improved device for sharpening the blades of a lawn mower, and may be employed for sharpening skates, knives, and other implements as well”. Remembering that the first lawn mowers were of the “reel type” and keeping the blades and the bed knife sharp was essential. It wasn’t until the mid-1930 that the first “Rotary” style mower evolved by none other than Leonard Goodall. 3 cheers for Mr. Goodall! Despite his handicap he kept a dream alive and went on with life, patenting several inventions.

For this month let’s talk about the Husqvarna Company. Did you know that the company has been around for more than 320 years? The very first Husqvarna plant was established in 1689 as a weapons foundry. Here is the trivia question for this month. What does the Husqvarna emblem represent? Keeping in mind the length of time Husqvarna has been around and what they were building, this is a question with many probable answers, but only one is correct.

- 16-inch bar
- 2 HP, 33.2 cc engine
- 3/8-inch pitch, .050-inch gauge
- Side-mounted chain tensioner
- Combined choke/stop control

STARTING AT  
**\$199.99**

The answer will be revealed in next month’s article. If you have an answer please email [askapro@futchsdepot.com](mailto:askapro@futchsdepot.com) or call 904-826-2488. We are open Monday thru Friday 7:30am to 5:30pm and Saturday 7:30am to 1:00pm. Stop by if you like and meet the staff we would like to get to know you and be your first choice when you need parts or service on your lawn equipment. We are located at 23 Marion St. One block North of SR207 on US1. Look forward to seeing you!
