

Artist Statement. Jack PIERCE

When I started college, I dreamed of becoming an Art Teacher, but was side tract into Engineering by good friend and mentor. I started painting again two years ago after being inspired by Bob Ross on T.V. I paint with acrylics and started with landscapes, but I have recently started painting contemporary and abstract. I especially enjoy doing abstracts with a hidden image. Most of my recent pieces have been in the 24 x 36 range and Gallery Wrapped.
