

# BETTERLIVING COMMUNITY BED

- The BetterLiving Community Bed is incredibly practical yet versatile to suit a range of home care needs
- Operates as a four-part, profiling bed with electric high-low height adjustment, backrest, knee break, and Trendelenburg tilt - to deliver multiple positioning options to suit every need
- The Auto Contour feature simultaneously raises both the head and knees, which combined with an auto-regressive backrest helps prevent painful skin shearing
- Convenient inbuilt hanging hook for easy storage and access
- Features lockout function, ideal for patients incapable of operating the bed due to cognitive impairment. Each function can be individually locked out using the key, which is required to unlock and reactive functionality

## Warranty

5 Year Frame Warranty  
2 Year Electrical

## Compliance

IEC 60601-1, IEC 61000-3,  
IEC 61000-4, IEC 60601-2-52, CISPR 11
