3. EXPLANATION

The client is informed in detail by Divine Brows staff about specific risks of CT or SMP procedures using specific needles and machines.

The following risks are specifically explained to the client:

- During the treatment, despite the staff expertise and all the precautionary measures, the injury is possible.
- During the application of the most advanced and the top-quality pigments, allergic reaction is possible but rare. The client is informed about this and he/she assumes liability.
- During and after the treatment temporary swelling, redness and/or itching may occur. Experience tell us that these symptoms are temporary.
- Depending on the skin structure after the first treatment small scabs with a loss of drawn hairs may occur and color intensity may change. In the first few days, spots are up to 40% darker and 10-15% thicker. Color reflection depends on the natural skin pigment.
- Divine Brows is not liable in case of improper post-treatment care.

Informed Consent for Cosmetic Tattooing treatment:

Please read this consent form and tick each box to indicate you understand and accept the information contained herein.

- I understand that the colour might change or fade after my first treatment and my therapist has no responsibility about that.
- I understand that there are no refunds given and I am responsible for upfront payment.

I further understand that the cosmetic tattoo/microblading technician and Divine Brows is relying on the information provided above and holds no liability for my acceptance of this procedure
