

“There is no exercise better for the heart than reaching down and lifting people up.”
– John Holmes

Dear Sir/Madam,

We are a fully registered, non-profit organization on a mission to improve the quality of life of vulnerable groups and individuals in need. We aspire to extend a helping hand to the youth, disadvantaged, and homeless people from marginalized communities lacking basic needs. that prevent them from sustainably catering to their clothing, food, education, and healthcare requirements.

In addition, we have specialized our services to assist our youth in succeeding in life. We aim to provide them the right footing in life – through mentorship, resources, and professional guidance that encourages analytical thinkers, that instead channel their time, energy, and potential into activities that build them. We believe that an informed youth is the future of society.

Therefore, if you would like to take up the role of a mentor, guest speaker, social worker, therapist, or tutor, we welcome you to offer meaningful connections that impact the youth in our program and positively influence their lives at home, at school, and in their communities. Further, as we will be holding periodic events that build our youth, e.g., sports days, community service, etc., we request your volunteering assistance in the planning, coordination, and making these activities a success.

We hope to empower you to meet new people, gain new skills, and make this world a better place. Feel free to contact us via email as we look forward to having advance discussions with you.

God Bless,
Passion Over Profit Family
