BEYOND KING TUT

The Immersive Experience

Commemorates the 100-year anniversary of the 1922 unearthing of King Tut's tomb! If you are interested in Egypt and the history of King Tut you won't want to miss the new immersive art experience at SoWa Power Station in Boston. The show will take you "on a time-traveling journey flooded with sight, sound, and intrigue!"

The exhibition will use "soaring imagery and cinematic storytelling" to tell the story of the **young boy that ruled as Egypt's pharaoh over 3,000 years ago**. 'Beyond King Tut' is a **must-see for anyone interested in Egypt and the history of King Tut**. New technologies are making it possible to fully immerse people like never before in important stories from our past, allowing us to develop connections and understand history's influence on our present and future generations."
