A WORLD OF VOLCANIC SENSATIONS

Unique and full of history. Based on the purity of volcanic rocks, **Stone** transmits a world of sensations through pieces in a wide range of sizes and colours interwoven with textures to break up single blocks of colour. Its characterful veining makes it an ideal partner to combine with other collections reminiscent of a range of different materials, creating spaces in constant dialogue with the landscape. Stone, an interplay of stony patterns in two colour ranges, warm and cold.
