

Pass it On

Bible Verse Group Game

*How well do you listen? Test yourself...
An active group game of listening and memorization!*

Everyone will need to sit in a circle.

To start, one person will need to go first.

Tell a short memory verse to the first person in the group.

They need to pass it on to the next person by memory, and so on...

At the end of the group, the last person will repeat the verse out loud or write it on a white board.

You can begin again with another verse, but let the person who was last to hear in the group now be the first one to hear and pass on the verse.
