

# Welcome

## ABOUT OUR HOME

Officially opened in 2016, our home provides a lovely alternative to the traditional nursing home or assisted living home setting. As a personal care home, we provide services for seniors at all levels from virtually independent to completely dependent. Our staff is fully trained in all three levels of care, and have access to an on-call RN at all times. As a personal care home, we give your loved ones the flexibility to live amongst peers in a home-like setting while still being able to receive special care through services such as hospice, home therapy, telehealth visits, and much more!

# About us

## MESSAGE FROM THE HOSTS:

Thank you for considering our home! We hope you can make it official and have your loved one join our Grace Living Family. As a private, family-run business, your loved ones receive quality, personal care in the way you would expect as if they were home with consistent help.

As a personal care home, it allows your loved ones the flexibility to receive care tailored to their needs while living in a home-like environment. We are partnered with several home health agencies, hospice companies, geriatric care professionals, and other senior care experts, so you have access to all possible care options while in a socially stimulating environment.

We are most accessible by email or contact form submission during the day via our website. Thank you again, and we look forward to welcoming you to Grace Living!

All the best

David & Esther Woghiren

# Levels of Care:

All on-site staff are trained to manage all levels of care. During your loved one's pre-assessment with the care coordinator, a level will be assessed to best help you understand the corresponding care plan. Each level corresponds only to the population of seniors that would otherwise not be classified as needing skilled nursing assistance. For more information on the levels of care, see below:

## **LEVEL ONE:**

Resident experiences minimal memory debilitation and is independent to semi-independent and requires minimal assistance performing activities of daily living such as:

1. Toileting
2. Feeding
3. Changing clothes
4. Ambulation
5. Bathing
6. Brushing Teeth
7. Entertainment

## **LEVEL TWO:**

Resident may experience some memory debilitation and is semi-independent or up to requiring moderate assistance with and increased surveillance during activities of daily living such as:

1. Toileting on a schedule
2. Entertainment
3. Monitoring or assistance with feeding
4. Assistance with ambulation or wheelchair bound
5. Assistance with hygienic routine

---

## **LEVEL THREE:**

Resident requires maximum level of care possible within a personal care home setting. Resident can not participate in any activities of daily living. Some characteristics may be:

1. Bedridden
2. Incapable of communication
3. Assistance with feeding, or on a puree or liquid diet
4. Regular incontinence care
5. Increased memory debilitation
