

Fairview Road cleanup held on Saturday

Last Saturday (4/18/09) morning approximately 15 students from Bonnie Fancher's Switzerland County High School class, some young friends and several adults participated in the Fairview Road cleanup.

While the group was disappointed that the entire road wasn't able to be covered, they did cover around 95-percent of the road's distance.

Among the things removed from the roadside:

- 10 tires
- 11 bags of aluminum cans
- 55 bags of trash
- Several items too large to bag

Thanks go to the following individuals and/or groups for their support:

- Switzerland County High School Students; friends who helped
- Switzerland County SWCD
- Natural Resources Conservation Service
- Switzerland County Highway Department
- Adults who helped
- River Valley Express/Vevay Shell
- Fairview United Methodist Church
- Affordable Container County
- Historic Hoosier Hills

The Indian Creek Watershed Project, along with partners, will be scheduling more cleanup activities. Anyone having suggestions should contact Cary Louderback, Watershed Coordinator at the Switzerland County SWCD, 427-3126 extension 3; or email cary.louderback@in.nacdnet.net.
