Soul Evaluation - Seeing Inside Your Soul with Andrea Elizabeth

These sessions are like a tune up for your being. I first allow you to give me an idea of what you think your soul really wants from you; then we do some inner soul work, taking a look deep within your matrix, DNA and your holographic senses. We clear this space out together, then we get into that inner caol space where your soul resides and begin asking the questions as to what you think you soul really wants. The outcome of each session is miraculous and amazing as it helps to enlighten you on how you really wish to live but have not been able to. All things come in good time however, some soul cleaning is always needed for a clear perspective.

Spiritual Evaluation with Andrea Elizabeth

Includes an in-depth soul clearing out of what is continuing to block you from god or spirit

Not quite the same as a Soul Evaluation. A spiritual evaluation is where I use a different sight to see exactly where you are at on a spiritual level. Your spirit is portrayed as a different position or has its own certain level of importance, and as we regulate your space together, unilaterally from a place or position of light we can and will actually see the difference in the values you hold, the position you take fully on in your life spiritually as well and mentally and physically.

Each and every level or layer of you has a value and regulates various parts of your space. Spiritually we all believe in something and together we can begin to seek out and to manifest what it is you spiritually wish to attain for your own life and your own self in our own self chatter if you will... We all have that voice that speaks to us. What does your say to you? This is the space will be working from. That voice of belief and discretion. It lives here with you 24 hours a day yet very few know of it. Let's take a look at it together and see what it has in store for you.

Spiritual Health Screening with Andrea Elizabeth

Lets take a look at where you are right now with the health of your mind body and soul. We will take a look at your mental physical and spiritual space using what I call a Universal Matrix Cleansing. In this cleaning you show me what needs to be healed, cleansed or moved out of your spiritual health matrix.

Your DNA may have a spiritual health tear some where down on your ancestral lineage which could be creating illness, addictions, diseases, weight gain or weight loss, mental fog, disharmony in your space, etc., we take a look at this together and see what is needed in your space to create a harmonious healing energy for your mind and body. We will take a look at your physical body, for blockages, diseased organs, health issues, addictions.

This is a full Mind Body and Soul Health Screening. I look at your physical body as well as your holographic space. I see where you are living from a fragmented or broken space and begin to allow in all aspects of self that are not present here, now, so that you can fully live in the present, right here-right now. It's an over flowing healing of total and complete love and joy and compassion.

Spiritual Living plan -Including Spiritual principles to live by or spiritual Tenants with Andrea Elizabeth

This will be a 24 hours a day living plan. We will capitulate your fears, your resentments, your anger and your hurts and make you whole again. We will respectfully see where have made mistakes in the past which may or may not have caused harm to you and to others. We will take a look at the so called human failings in your life. We will see where our God Given Instincts have gone astray causing havoc in your life, as well as see where your habits and behaviors have been harmful to yourself and to others. We will begin to nullify your past and create a new perspective for you to live by. In doing this work you will become honest with who you truly are.

This is going to be a process and it will have subtle yet profound effects upon you. You will begin to find out the meaning behind you and your human behaviors. We are going to be spiritually cleaning out your house and allowing in a new living quarters, new living principles and allowing a new life to ensue. This is the main aspect of healing, as once you clean your own house, and continue to keep it tidy, you will enjoy all other aspects of your life; physically, mentally, and emotionally. What a profound concept. Clean living from the inside.

Spiritual Workout - A specific physical spiritual journey for each individual

Spiritually speaking most people do not see that they are having difficulty mentally emotionally, spiritually, and physically; all of these are a recipe for health. If you work only on the spiritual aspect of yourself, the physical lags and becomes weakened and sick.

This spiritual workout is a simple energetic addition to the rest of the processes. Beginning with simple breath exercises and gentle yin yoga postures you will begin to feel the flow of your new energetic body and its inner workings. During this process of movement each and every time you begin the day you will begin to notice new ideas, new feelings, new precepts about you and your life. You will begin to allow old memories, hurts, bad decisions, to simply slip away. What most people do not know about the body is that we hold on to things in various places both within and without. You may be holding on to a grudge that you thought you had worked through and it may be stuck in your inner thigh. And slowly but surely, by moving these parts of your body, you will be able to maneuver it out easily and directly without even having to feel the charged of the emotion. It is always surprising to me when I am doing these yoga movements and these very old memories or feelings show up. They are there, believe me. Even if you think you have worked it out somehow. They seem to stay. So, I include movement in this as a part of actually realigning your mind body and spirit or soul into wholeness. Allowing you to come holistically, spiritually and physically whole. This will soon become a lifestyle of contentedness wholeness and ease all in one.

Retraining the Intellect

I added this course, because my guides said it was paramount, and because I know of so many people who seem to not be able to get to the other side of their head and or their brain, the intellectual side of the spirit. This session is for the so called "close minded scientific engineering brains" who can only see what is on paper. They cannot fathom the unknown because it is not explained. We will fully conjugate each and every aspect of the self from a spiritual vibration and or space by allowing you to see with your mind's eye or mind's heart just exactly where you have performed the same duties, such as clear knowing, clear seeing, clear audible, etc., however you and your mind thought they were something different. This session was channeled to me by Einstein and Sir Isaac Newton, two of my favorite guides who like to come in and give me information to help the big-minded people who are struggling with their beliefs.

Used a sort of muse on each perspective

Get down to the nitty gritty off their scientific space and dance with them

How: You will sort of almost undue their philosophical ways and sort of undetermined their sort of planned outcome and throw them off of it or a take a look

In these sessions, we will: Dispel any lies, determinations of others hypocritical ways from your make up that unilaterally are misunderstood by your own self. Your brain knows one thing and is trained to know this, yet you have conflict inside with the out come as to who what and why it is the way it is. This manifestation class, I will call it, will help to identity why you have the doubts within, and why you seemingly cannot fully live the life you wish you could. And you cannot figure it out on your own, as you have absolutely everything society says you are supposed to have, yet you are unfulfilled. Allow me to almost undo your physical make up through working with your DNA stand if that is required.

We will allow the fractured sight of your holographic being to come into fruition with you as a whole. You will become more intuitive and insightful and actually listen to that, not the programming of someone else who is the teacher and you have told yourself, I should listen to them. No, you are the actual teacher. It is almost as though you are teaching yourself.

However seeing your life through your own eyes is a way of almost recrucifying your soul day in and day out. You are almost living in a daily sanctified space of death or dread and you can find no way out. Come today and let us figure it out together.

The sanctimonious
Intellectual pride
Spiritual pride
Intellectual mind set retraining and or Retraining the intellect

Using techniques given to me by Einstein and Sir Issac Newton through channeling, we will be using using a PI ratio sight

I unilaterally communicate first with your mind, then your body then your spirit

In seeking out each part of your uncommunicative space we can almost individualize your manners in which you seem to be having the most trouble and need the most insight

I can actively see you or where your ratios have been an almost derivative of the unnatural
I can see where nature in your life has been steered off course
And visually determine the best course of action for you to regain your natural path in life

If you are leading a sort of double life where you are an actor in your life and feel no emotion toward it, you may be off your own natural life path sideways or what have you
Intellectually you are humanly on the money, however emotionally and spiritual off the level of enthusiasm and or light.

This healing will enable you to begin to fortify your own nature and your own life and your own spiritual path if you will and almost euthanize the past into a non-existence space

Furthering your light at the end of the tunnel; if life seems bleak seek me out for a session.
I promise you won't be disappointed
Einstein's theory of relativity never really touched on the bounds of the human society
He only thought in terms of multiplicity or multiplicate capacity in terms of humanness
Our own divisive strategy can operate in a dual magnanimity dueling itself to the end
If you are here at your end, then that is a great space to begin.

Here are words from the Helpers in Hawaii. April 2018 Oahu

Any words on the intellect healing from Hawaii

Well andrea we have actually been waiting for this. We are also here to gain perspective on this topic. We rather agree that each and every aspect of the altered intellectual self has meaning and each and every topic of the intellect or intellectual has to be almost forfeited to become fully aligned and intact for a spiritual reasoning

Why is that

Well first and foremost each and every person relates to solely and souly on their own intellectual pride meaning that what they think is factual and true due to the determination of their manufactured soul.
What is a manufactured soul

It is a soul that has been taught to unthink the real and to think the unreal and in doing so they have been almost tricked into a belief that is not pertinent to their own being in a sort. They have some type of continual synapse burst inside when they try to think the other way or on a spiritual basis if you will and they often times find it difficult to even relay this instance as they have no so-called feeling attached to it. This is what is to be called an unnatural synapse burst and it happens over and over again to the college literates. In time when they focus elsewhere or find other so-called ideas, this is sometimes terminally difficult for them to find that other kind of perspectives exist.

Why

Because they have learned to believe in the opposite

So how can I assist them

When you begin to do these respected healings we will all be with you.

Especially Albert Einstein he'll be working within his metropolis of guides and begin turning into a new almost metropolis of mathematical and credence to fully represent who and where these new literate illiterates will become.

You only approach these new family roots with an almost Abernathy approach we're you can keep them from a place of their inner core collective. And from this inner core collective you will and trained their thoughts and our minds to become fully operational

On almost the other side of their brain truly forming a new sort of perspective unilaterally in the deepest part of their emotion. In doing this you onto five year alone sort of breaking point inasmuch as they do well and can be able to fathom a new radiant format of thought.

Where throughout any of their life there was an innate perspective to which they could unilaterally combine a say force with its own nature. And in doing this in it's perfectly natural for them to think that way so it is kind of blowing through the outcome from a point of a new millennial or combat zone and in taking this force all the way through core of the anagram it forces their belief to be a constant. And in taking this constant enforces their existence to form another thought pattern. Therefore you erasing the old and providing the new.

Each form therefore consists of a new realm and tact or perspective

Eliminates all things contrary to their old beliefs Allowing and to sort of open up their mind body, even hearts space to newness

Add-on #3

Perspective Healing

In these Perspective Healing sessions, I will take a look at your fractured perspective space and begin to bring in all aspects of you that are scattered, mind body and soul, allowing you to be completely present and evaluate where you currently live and see how it is out of rhythm and allowing your entire space to become whole again, using some grace and allowance mechanisms that I received from channeling.

These simple plans are from a deep place within where one can only sense. I assist in allowing this space to open up and clear out while taking a look at what is happening within your soul space and allowing for healing and peace. When complete you will have a total clear new perspective on absolutely everyone and everything. And things will begin to line up and start working for you.

In a perspective healing we will together take a look from your fractured self patterns to fractured mind patterns as well as your fractured perspective. This will entail really delving into your own mind from a place where the brokenness had begun and allowing us both to see the ramifications of it all both then and now and we will take the trail to find out just where that perspective was broken and work in that space

It will be the circles space on the axis of your life when it came to a crossroads. We will stand together at the crossroad, look at the actions and reactions that are broken in your perspective space and see from this fracturedness. We will together work in that space to sort of clear out and to manage your newfound space and perspective thus allowing you to sort of sew up all old loose ends and to begin to manufacture new ideas feelings and thoughts of your life. There is no better feeling than to have a clear and unfractured perspective in your life
