

COMMUNICATION before & during the trips

We want you to have all the information you need to be prepared and comfortable on the trip! That requires a lot of communication!

Every traveler will need to download the WhatsApp app to your cell phone. We use this to text, call, send photos, and keep in touch about plans and trip updates before & during the trip.

We will have an all-group meeting before we travel where you can ask questions and become familiar with how the tours operate.

We will also send weekly bulletins that tell you all about packing, food, where we are going, what to expect, etc. We want you to know everything you need to and are diligent about giving you all the details!

How to use WhatsApp:

Download it to your phone from your app store.

Make sure Debbie's phone # is in your phone as a contact (559,.740-9436)

Open the app and click on the green messaging button in the lower right.

Click the magnifying glass to search for Debbie's name then type a message and send it.

You can message anyone in your contacts.

Once Debbie gets the message, you will be added to the 2024 Traveler Group and get messages there.

Check WhatsApp often and start connecting with other travelers!
