

## **We believe in 3D's**

The Barn at Stark Farms

One of the technological advances in the world today is 3D printing, make something out of nothing that has immediate use and functionality. No longer is reprographics just printing for messaging.

At Stark Farms, we have our own version of 3D for making something more lasting and durable than any 3D printer could ever make.... your relationship with friends, family, husband, wife and significant others.

Our 3D is dialogue, date and depart somewhere different with someone significant to you.

### **Dialogue**

The most powerful tool in the world is the human tongue. Not everyone has the gift of gab with everyone they meet, but everyone does have the ability to express themselves to people they feel comfortable with.

### **Date**

Dialogue becomes more meaningful when it involves dating the one that is the centerfold of your relationships, a one-on-one special time that blocks out cares, woes and the noise of the world. We dig deeper into those that have significance in our lives.

### **Depart**

In order to keep dialogue and dating fresh and different, we should take our relationships to new surrounding so we can explore life together. Something routine, something special meets something new, something different.

The Barn at Stark Farms is something special and unique. It is a transplanted treasure, steeped in history of colonial life in New England and a reminder of the Founding of America through the sacrifices of the original 13 colonies. Colonial America comes alive and renews our spirit.

Stark Farms is all about living amongst God's creations and in awe of His gift of nature. The farm is a working farm surrounded by nature preserve, paved bike trail and petting zoo and tractor pulled hay ride available to quests. Refresh your souls and renew your outlook on life.

Whether you live hundreds of miles away or just two miles away, The Barn at Stark Farms offers a weekend depart from your normal routine and a walk back in time to a time of courage, conviction and the fight for freedom; inspiration to all of us.

Book your weekend departure now on AirBNB and learn more about members of the historic Stark Family of New Hampshire and the revolutionary spirit of our ancestors in God, Family and Country, the underpinnings of America.
