

WATER SAFETY SPECIAL

Natural disasters have wreaked havoc across large swathes of the nation, causing infrastructure damage that make it difficult to obtain clean water. Although bottled water offers a solution to some, it is a finite resource, and one that is often the first to run out at stores.

Fortunately, Multipure offers a solution to emergency clean water needs with our **Water Emergency Treatment System (WET System)**, allowing you to manually treat unknown quality water sources and provide cleaner, healthier drinking water for you and your family.

To make sure that you always have a means to obtain cleaner water, Multipure is allowing you to request a FREE WET System when you purchase a Multipure Drinking Water System or Drinking Water System Starter Kit at regular price – an \$85 value!*

To accommodate those affected by recent disasters, Multipure is offering our Water Safety Special early, beginning September 11, 2017, as an optional promotion to our Summer Shipping Special. On October 1, 2017, our Water Safety Special will be our only regular promotion until the end of the year. So assure yourself of safer water with a Multipure Drinking Water System and a FREE WET System!

GET A FREE Water Emergency Treatment System!*

Request a Water Emergency Treatment System – an \$85 value – for FREE with the purchase of a Multipure Drinking Water System or Drinking Water System Starter Kit!
