DEADLINE FOR THE JULY ISSUE OF THE TRINITY TRUMPET IS JUNE 23rd.

For Your INFORMATION

If you are still making masks, Bev Erdmann has plenty of 1/8" elastic, nose pieces, ribbon, and bags to hold them purchased with Pastor's Thrivent card. Darke County Board of Health and Lutheran World Relief are still requesting them.

Face Masks

For instructions on sewing these masks, you may contact Judy Ulrich at 937-692-5054 or Bev Erdmann at 937-678-0122 or even go to www.deaconess.com/masks or many other YouTube.com sites. There is a plastic tub outside the glass doors at Trinity where you may drop in any that you make or take as many as you may need.

If you take one or more of the fabric masks available outside the doors of Trinity doors, you are advised to **"wash it before you wear it"**.

Church Council

The Trinity Church Council met for our regular monthly meeting on May 20th. The majority of our time was spent on the best way and the best time to resume our regular worship in the way that would be safest for the members. There will be information coming on this matter.

We are requesting that if you have a small group that would like to meet at the Church, you please inform the council and get our approval. The reasoning for this is mainly to have a record of who is in the building. Also, please read the following article about using the building.

We decided to place a sign with the masks that are outdoors in the container that recommends washing the masks before using them.

Trinity will be providing the meal for the Grace Resurrection Soup Kitchen on June 17 and Katherine would appreciate any help you can give.

Use of the Church Building

We know that for all of us, Trinity is our Church home and are asking that you treat it as you would your own home. If you are in the building, please make sure to use the materials provided to sterilize anything you might touch before leaving. There are Purell cloths and some hand sanitizer upstairs on the table outside the sanctuary and another set downstairs on a table. Use what is there or what you bring, but please clean before you leave.

CHRISTIAN EDUCATION

...News for
Pre-K through
6th Grade

Children's Sunday School is on hold for now. I'm hopeful things will open up soon. Your children are missed!

Even though things are unsure right now, plans are moving forward for possibly an August Bible School. The tentative dates are the 2nd week of August. If we have Bible School it will be for only 2 evenings. The theme is Anchored (Deepening Faith in God). The kiddos tend to love water themes like this. More details soon.

Your prayers are appreciated!

Thanks, Marge Warner 937-623-2544

Word from Our Pastor

Dear Trinity Church,

For this month's Pastor's Article, I chose the very last Psalm, Psalm 150. It's a really short Psalm, but when I ponder the significance of these few words, it leaves me humbled and with tremendously thankful heart. I hope I never complain about anything ever again, but instead always find something to praise God for. Here's the Psalm...

*¹ Praise the LORD! Praise God in his sanctuary; praise him in his mighty firmament! ² Praise him for his mighty deeds; praise him according to his surpassing greatness! ³ Praise him with trumpet sound; praise him with lute and harp! ⁴ Praise him with tambourine and dance; praise him with strings and pipe! ⁵ Praise him with clanging cymbals; praise him with loud clashing cymbals! ⁶ **Let everything that breathes praise the LORD! Praise the LORD!** (Psalm 150:1-6)*

Six short verses, but they say so much. For some reason, probably because I don't play any instruments, I was led to the very last verse of the very last Psalm. "Let everything that breathes praise the Lord! Praise the Lord." This got me to thinking about breathing and how fortunate I am that breathing comes so easily for me. I'm thankful I don't struggle with asthma or some other chronic breathing ailment. I feel great compassion for all the Corona patients who can't breathe on their own because the virus has devastated their respiratory system.

I read on the internet a couple of days ago (so it must be true, right?) the cost for one day on a ventilator is \$547.48. That got me to thinking... The normal respiration rate is between 12 to 25 breaths per minute. At that rate the normal person would take between 17,280 to 36,000 breaths per day. If a ventilator costs \$547.48 per day, then the cost for each breath would be between 3.17 and 1.52 cents per breath. At that rate, in my 62 years of life, I have so far consumed almost \$12.5 million dollars' worth of air, which God graciously provides each and every day, totally for free.

So, when I'm sitting all alone in my home trying to keep a positive outlook on life and when all I hear is the bad news of a pandemic where hundreds of people are getting sick and dying every day, I think about how much I have to be thankful for. Today alone, I will receive \$550 dollars' worth of God's perfect air all for free and totally without payment. Shoot, I don't even have to ask for it. The truth of the matter is, I can't **not** receive this gift. Have you ever tried to hold your breath? You literally can only hold it for so long before your body's automatic response takes over and you gasp for air.

I think God's grace works a little like that too. We receive it like we receive the air. You just take it in like you take a breath. I saw a video by Rob Bell a long time ago where he said the sound of a breath is the same sound as the Name of the Lord, Yahweh. He said that when we inhale, the sound we make is the first syllable of God's name. When we exhale, we make the sound of the second syllable. It sounds like Yah ... weh. Think about how profound that is. The first sound a newborn baby makes after coming into this world is the name of God, Yah□weh... The last sound you or I will make before we join the saints in heaven is the name of God... Yah-weh...

The way I see it, if what Rob Bell says is true, then every human being, every living creature that breathes air, praises God with each and every breath they take. In my life, I figure I've breathed God's name between 400 and 500 million times so far. So, the Psalmist is not just hoping every living thing will praise God, he is simply describing one of the basic conditions of life. God gives us this incredible gift of the atmosphere and in return we praise His Holy and Precious Name with every breath we take.

Thanks be to God for creating us with the ability to praise Him just by breathing! May you never forget this blessing and never stop praising Him until that day when you speak His name for the last time and then enter into your Heavenly Father's mansion where a place has been prepared just for you. Amen!

In The Grip of God's Grace,
Pastor Mel

President's Perspective 2020

Hello, Trinity Family!

Eldon and I have done a great deal of reflecting on life in these Pandemic Times and are still trying to figure out just what getting back to normal will mean. We have concluded that there will be a "new normal" in the future. When we return to services at Trinity, they can't look the same. We will have to give up the Prayer Request notebook, hymnals, clipboards in the pews, and maybe even more. We will need to enter and exit the building systematically, and the service itself might look very different. From our Council meeting on the 20th, I was reminded of the great possibilities we discover when we brainstorm as a group. Please offer your prayerful support for our council as we make these complicated and important decisions. We love our Trinity family and want to make sure we do this right and protect everyone.

With businesses, parks, and gyms opening up, we are all going to have to decide what risks we are willing to take and how much we want to be out and about. It isn't so much our own health that leads us to wear masks, but our responsibility to make sure that we aren't the cause of someone else contracting the virus. It's visibly showing our Christian concern and putting others before ourselves. We don't mind sharing God's love, but we surely don't want to share the Covid-19 virus.

My wish for all of you is to have the peace that passes understanding, and hope that you will take time to stay in touch. Call someone, text them, or pull up in the driveway and visit at a safe distance. I have found that these conversations do me a lot of good too.

Face masks are still needed so continue to make and donate them. Drop off any of the masks at church, or call the church or Judy.

Thanks to all those who donated items and made face mask for the youth and staff at Wernle. They were greatly appreciated.

There are fleece blankets to tie if you want to take one home and make it, please feel free to do so. You will find them on the table in the church basement. Please sign your name on the paper provided.

Judy Ulrich, (937-692-5054), Your Trinity Rep. at Wernle Youth and Family Treatment Center

If you wish to send greeting cards or gifts to any of the residents, sign the card with your first name only and Trinity Lutheran Church if you want. Place your card in the envelope unsealed, and write the recipient's name on the outside. Place this envelope in another envelope. If you would like to include a gift card (\$15-\$25) for food or shopping, place it in the outer envelope. Staff will need to monitor it and make plans for them to use it.

Address your card to:

Attn: Resident's Greeting Card Inside!

Straight Talk About Diarrhea

You're in the midst of a nasty stomach virus and you just cancelled a commitment with a friend, who asked, "What kind of symptoms are you having?" You hesitated, before offering, "I'm not throwing up. But, well...." By way of elimination, your friend assumes you don't like uttering the word diarrhea. Even if the subject leaves you feeling uncomfortable, it's to your benefit to know what causes this intestinal distress, what you can do about it and most importantly, how to know if it's serious.

What is Diarrhea?

Diarrhea is loose, watery stools. It's the second most commonly reported illness in the United States (after colds). Acute diarrhea lasts for one or two days and is normally caused by a gastrointestinal virus or a bacterial infection. Chronic diarrhea, however, lasts several weeks and can be a symptom of a medical disorder. The loose, watery stools can be accompanied by symptoms like cramping, bloating, stomach pain, nausea and fever.

What Causes Diarrhea?

Common causes of diarrhea include:

- Intestinal virus: This is the most common cause. For kids, rotavirus is the culprit. For adults, it's norovirus (also called cruise ship diarrhea, for reasons you can guess).
- Bacterial infection: Food poisoning is an example of a bacterial infection that causes diarrhea.
- Medicines: Antibiotics, chemotherapy drugs for cancer and laxatives with magnesium can all cause diarrhea.
- Medical disorders: Diarrhea may be a symptom of disorders such as celiac disease, Crohn's disease, irritable bowel syndrome (IBS), issues with absorption or lactose intolerance.
- Foreign travel: Many experience "traveler's diarrhea" because of drinking water or eating food that contains bacteria or parasites.
- Other rare issues: These include damage from radiation or tumors that produce too many hormones.

(over)

What Can You Do to Treat It?

It's extremely important to avoid dehydration when you have diarrhea. You can drink liquids that contain sugar and salt (which helps your intestines absorb fluids). Suck on ice chips and return slowly to eating with broths and bland foods.

If you've been prescribed an antibiotic for a bacterial infection, you need to continue taking the antibiotic as instructed. Unless your doctor tells you to, avoid taking medicines that stop diarrhea as these can make infections worse. For chronic diarrhea, the treatment will depend on the underlying cause.

It's extremely important to avoid dehydration when you have diarrhea.

When Is Diarrhea a Serious Health Concern?

When you or your child have diarrhea, you need to be on the lookout for symptoms of dehydration. These are:

- Urinating less often than normal
- Feeling thirsty
- Dry skin, mouth or nostrils
- Sunken eyes
- Lightheadedness
- Fast heart rate
- Headaches
- Sunken fontanel (on baby, the soft spot on the head)

If you see these signs of dehydration, call your doctor right away, and call for an appointment if you have any of these symptoms:

- Blood or pus in your stool
- A fever over 101 along with diarrhea
- Black stools
- Stomach pain that doesn't go away after you use the bathroom
- You have diarrhea after traveling to a foreign country
- Diarrhea that lasts more than two days for an infant or child or five days for an adult. For young babies, call the doctor as soon as you realize the baby has diarrhea.

Happily, in most cases, diarrhea soon passes, and you can be on your way – without worrying if you're close to a bathroom.

SPECIAL DAYS IN JUNE

Trinity Sunday, June 7

Officially called "The Solemnity of the Most Holy Trinity," is one of the few celebrations of the Christian Year that commemorates a reality and doctrine rather than a person or event. On Trinity Sunday, Christians

remember and honor the eternal God: the Father, the Son, and the Holy Spirit. Trinity Sunday is celebrated the Sunday after Pentecost, and lasts only one day, which is symbolic of the unity of the Trinity.

The Trinity is one of the most fascinating - and controversial - Christian teachings. The Trinity is described as a "mystery." By mystery the Church does not mean a riddle, but rather the Trinity is a reality above our human comprehension that we may begin to grasp, but ultimately must know through worship, symbol, and faith. It has been said that mystery is not a wall to run up against, but an ocean in which to swim.

Common wisdom is that if you discuss the Trinity for longer than a few minutes, you will slip into heresy, because you are probing the depths of God too deeply. The Trinity is best described in the Nicene Creed. Even though the word Trinity is not in the Bible, the foundations of this doctrine of the Church is grounded in Scripture. Here's a few examples:

Matthew 28:19 - *"Go therefore and make disciples of all the nations, baptizing them in the name of the Father and the Son and the Holy Spirit . . ."*

Luke 3:22 - *"And the Holy Spirit descended upon Him [Jesus] in bodily form like a dove, and a voice came out of heaven, "You are My [the Father's] beloved Son, in You I am well-pleased."*

2 Corinthians 13:14 - *The grace of the Lord Jesus Christ, and the love of God, and the fellowship of the Holy Spirit, be with you all.*

Because the Trinity involves the very nature of God, we are best not to try to hard to describe or understand how the three can be one and the same, yet totally separate and distinct even while being the same. Rather it seems best to simply worship and adore this God who is a mystery and yet has been revealed to us through the incarnation of Jesus and continues to be revealed to us through the indwelling of the Holy Spirit.

In 1916 Pres. Woodrow Wilson proclaimed June 14 as the official date for Flag Day, and in 1949 the U.S. Congress permanently established the date as National Flag Day.

The holiday commemorates the date in 1777 when the United States approved the design for its first national flag.

FIRST DAY OF
SUMMER 2020

June 20

In the Northern Hemisphere, the June solstice (aka summer solstice) occurs when the sun reaches both its highest and northernmost points in the sky. Eating strawberries is the perfect way to celebrate the June solstice, since June's full Moon is also known as the **Full Strawberry Moon**. It typically coincided with the ripening of strawberries in what is now the northeastern United States.

A woman called Sonora Smart Dodd was an influential figure in the establishment of Father's Day. She was inspired by the work of Anna Jarvis, who had pushed for Mother's Day celebrations. Sonora felt that her father deserved recognition for what he had done. The first time Father's Day was held in June was in 1910. Father's Day was officially recognized as a holiday in 1972 by President Nixon.
