Our Vision

Core Learning Solutions Asia Corp. (CLSAC) is the ASEAN leader and game changer in capacity-building of professionals with core needs related to English proficiency, communication, teaching, and assessment. We provide expert and innovative solutions to address the specific challenges professionals face in the 21st century through on-site, virtual, and blended modes of delivery.

Our Mission

CLSAC is a professional development organization that develops certification programs and trainings essential to the core needs of professionals who want to achieve their career goals and who want to implement K to 12 educational reforms.

About Core Learning Solutions Asia Corp.

We believe that it takes courage to take the first step to embark on a professional development, to objectively assess one's English proficiency, or to open new doors. We make it easy for you to take the first step. We are a group of researchers, teachers, teacher trainers, and specialists who have a heart for innovation and transformation. We listen to you and create training programs specifically for you.

For the past years, our consultants have given trainings to organizations like WHO, Philippine Airlines, Meralco, among others on professional communication. We have also trained division superintendents, principals, and teachers on oral and written communication. We also take the time to reach out to teachers in the different parts of the country, so they can implement standard-based assessment. Today, we initiate the ASEAN Can Do Project with a reference framework, so there is a common language that policymakers, teachers, and students can use to evaluate English proficiency levels.
