

Basics (See Timetable and Job Sheet for more info/details):

Starting out:
 Pull train paperwork from bin at origin. Confirm lead loco.

Contacting the Dispatcher:
 Always start with "Train (your #) calling Disaptcher, over"

Departing: "Train (#), Engineer (name) ready to depart (location) for (next scheduled stop or destination), over."

Completing run: "Train (#) terminating at (location)."

Selecting locos - dial up all 4 digits then press "SEL":
 For through trains, use train sheet or lead loco #.
 For locals, get address from yardmaster.,

Sound-equipped locomotives and consists:
 Some will not move until sound comes up - WAIT FOR IT!

Ending a run:
Release locos - IMPORTANT: Dial "0000" on your throttle
Paperwork: leave in "Completed" bin at destination.

Understanding the signals:
 If ANY head on a signal isn't STEADY RED, you may proceed.
