Also, you will be charged for using program supplies (shampoo, liniment, fly spray, etc.), so please have your own if you intend to do your own grooming.

## **THINGS TO REMEMBER...**

**Splits** - At shows you will be **charged your share** - based on the number of horses - of any feed and bedding purchased, as well as your share of any tack or grooming stalls in our aisle, any aisle decorations, golf cart rental, and groom expenses (if we have one). Groom expenses include, but are not limited to, lodging, meals and travel.

**Medications** – All medications must be given by one of the trainers, not you, at a USEF sanctioned competition. Because of that, we purchase and provide show medications and charge **market+**.

Some clients have their own trucks and trailers for shipping, and other equipment that is used at shows. Please do not assume that you can use this just because they have brought it and you are friends. Plan on bringing/using your own equipment or paying a rental fee either to the horse show, or to the person from whom you are borrowing.

**This list is not meant to be complete, but is a fairly comprehensive summary of current costs. You can always ask us about any charges or fees. We will try to work with people wanting to attend away shows when the group attending is very small and costs per horse/student are correspondingly high. However, when we are out of town and not teaching (and therefore not earning any money), there is only so much we can do to help.**
