

GGF.Quality CEN

The screenshot displays the GGF.Quality CEN software interface. The main window shows a 'Test Results' table with columns for Batch, Order, Customer, Thick, Product, Item No, Width, Height, and Result. A 'Fragmentation Timer' dialog box is open, showing a digital display of '1:00' and a 'Start Count' button. Another dialog box, 'Transfer to Disk', is also visible, showing options for 'DVD Writer (F:)' and 'Removable Disk (G:)' under 'Quality Module'. A 'New Record' form is open, showing fields for Record No, Inspector, Project, Batch No, Order No, Customer, Item No, Nominal Thickness, Nominal Width, Nominal Height, Manufacturer, Glass Type, Product, and Manufacturers Batch No.

GGF.Quality CEN is a modular based total quality solution and factory production control (FPC) system which assists in the control, continuous surveillance and improvement of product(s) and production processes.

GGF.Quality CEN will guide you through the requirements and the preparation of documentation required to achieve the CE Mark.

GGF.Quality CEN is built with individual quality modules that allows you to tailor the package to suite your individual company needs. The modules assist in the collection, calculation and storage of quality data taken against any given production batch or customer order that can be allocated against a project, if required. All data is tested against the latest quality standards to ensure conformity of product and raise issues that may have occurred in the production process. The application has been developed for Glass Manufacturers, Coating Manufacturers and Glass Processors.

Features

- CE preparation.
- Modular based quality system.
- Test against the latest standards.
- User control and management.
- Historical records and archive.
- Over 200 preloaded glass products.
- Test reports in pdf format.
- Email reports via Microsoft Outlook.
- Load quality standards for easy access.
- Document search.
- Simple and complex record search.
- ISO compliant.

For further information contact the Glass and Glazing Federation to incorporate GGF.Quality CEN into your CE preparation package.
