

TREASURE HUNT

A reward awaits anyone bold enough to complete all the steps of the treasure map in a single day, but who's heroic enough to complete it in a single sitting?

Materials Needed:

Page 2 of this document printed off.

A counter, dice, lego mini-figure or other item suitable to act as a place marker.

An attractive reward!

Instructions

Make sure you're both in a good mood and ready to play a fun game.

Put your counter / place marker on the red circle to begin and follow the instructions.

Move on to the next space every time a challenge is completed. As soon as it gets too much move away from the piano and go to a different activity.

Return to the game throughout the day, with the aim of getting all the steps done in one day. If you only get part way, no problem! Just try again tomorrow.

If your child gets really good at completing this in one day it's time to attempt the whole journey in one go tomorrow.

...and most importantly agree on a reward and have it ready for each time they've completed the last challenge!!
