	The Board noted the good work that has been completed to get the project	POs to prepare and
	to this stage. They positively viewed the artist impressions and understood	submit ABA Grant

	for the community and the long-term benefits it will bring.

	TTC: I want to see better outcomes for community	information.
	CC: Want to know what services will be provided to local children.	
	Who will they be working with (elders)? Who can use the	
	program? Who will be teaching? What numbers have previously	
	been through the program and what are the outcomes?	
	The CBT will not support this EOI at this time. More information required.

	JQ: They need to have a full list of what they would like to do and	iiiiOiiiiatiOii.
	prioritise it because we can't fund it all. It is concerning that	
	people want us to fund the whole project and not seek funding	
	from somewhere else. There are a number of avenues they could	
	be seeking for other funding, including the Community Benefits	
	Fund (funded from poker machine royalties).	i

#	Agenda Item / Action	Outcome
	TTC: The POs need to advise them to look for other funding sources as well CC: Who are the people who run the rodeo now because there doesn't seem to be any community representatives? People who want to contribute have been pushed out. AB: What we require is a copy of their AGM minutes and constitution. JQ: Some of these issues are for the community to follow up and not the CBT. We could ask the project officers to go back and ask the committee the following: Who are the members of the committee? What strategies do they use to encourage broader community membership? What do they plan to construct/repair and what are their priorities for funding? What other sources are they seeking funding from? How have they maintained infrastructure previously funded by the CBT What are their governance arrangements. MB: As a board, we need to ask ourselves if this is as important as other things we are asked to fund. The CBT will not support this EOI at this time. More information	POs to prepare letters to applicants advising of the outcomes of the EOIs.

	8.2. Current full applications	
	8.2.1. Mabunji – Upskilling for Future NB: All Mabunji board members and employees left the room to avoid conflict of interest. (ND, EG, SE, NB and CC). EE: I am concerned about local people getting these skills, getting jobs and leaving MB: There is not enough information on what are the benefits and who is being targeted? Is it employees or broader community? Is it the CBT's job to pay for training for Mabunji's employees? JQ: Very disappointed in the level of information on this application. It is very unclear what they are trying to do. They have not adequately answered the questions other than to list the people they have consulted with. It does not detail what their views were. MK: Who wants training? EE: Why is my name on that list of people they have consulted with? TTC: We could spend the same money training people to build Searcy Street. Application not supported. Moved – MK Seconded – EE	POs to provide feedback to Mabunji on applications for Upskilling for Future and Yanyula Town Square.
	 8.2.2. Mabunji – Yanyula Town Square NB: All Mabunji board members and employees left the room to avoid conflict of interest. (ND, EG, SE, NB and CC). SA: This has come to the Board a few times before but this is much grander. I think they are looking at it as a pilot. JQ: They haven't indicated the tenure of the land. 	

	CC: Who is going to maintain it?	
	SE: If they want to have meetings why don't they just go out to the	
	playgrounds and put up gazebos? I think just a bough shed would

I think just a bough shed would be much better than this MO: If this is a pilot program for one of the clans I expect that they would come back with proposals for another three. Is that right? JQ: Do we see a need for this? We need to know: • Whether Mabunji has approval from the landowner to build? • Who will be paying power and water costs? • Who will maintain? • Is it in a flood zone? • What is the land tenure? TTC: The Searcy Street development will be a meeting place — is this needed too? MK: I can tell you this proposal did not come from the old people. If they wanted a meeting place they would be asking for a bough shed. EE: If you need a meeting place, it should have toilets. Application not supported. Moved — MK Seconded — EE 8.2.3. TTC: We have capacity at Searcy Street for court once it is established CC: I don't know what it stopped being held at council. When it was Mabunji the community members got pushed out and the Government did not pay. JQ: The last thing we need in Borroloola are demountables set up as permanent structures in the main street. Application not supported. Moved — NB Seconded — MB 8.3. Awaiting full applications 8.3.1. Borroloola Football and Sporting Club — Thunders AFL, Juniors

#	Agenda Item / Action	Outcome
	JQ: Concerned that applicants are providing poor quality submissions for funding and not meeting base criteria. SA: Concerned that CBT is seen as a cash cow with no real local benefit. TTC: Need to make sure successful applicants acknowledge what the CBT has put into their programs. EE: A lot of people in community don't know what the CBT does or who can access funds AB: People need to acknowledge when they get money from the CBT MO: It is concerning that we have only approved one grant today. We have all this money sitting in the bank and it is not going out the door. In our ILUA negotiating meeting people said they didn't know anything about the Trust. I think the POs need to meet with the boards of MAWA and Mabunji, not just the paid staff. In general, the directors were concerned about a number of issues: • Whether the boards of Mabunji and MAWA were fully supportive of grant applications being lodged on behalf of their members by paid officers • The poor quality of submissions (e.g.: evidence of land tenure, full engagement with relevant community groups, detailed budgets, seeking funding from other sources, ongoing maintenance requirements, internal board approval, communication and promotion). • How people can make complaints about the CBT It was resolved that: • POs work with TJ to refine the application process to cover the issues above. • Put in place a higher level of due diligence for applications valued at \$10,000 and above • POs improve communication with grant applicants and recipients • POs put in place a complaints process for the CBT	POs/TJ to refine the application process to respond to Board's issues POs to implement
		a complaints process for the CBT
9	Youth Strategy	
	Discussion deferred to next board meeting	
10	CBT-Led Developments – Plan C updates	
	Academic Assistance Bursary JQ expressed a view that the program should be better promoted. Application from School of the Air – Approved. Borroloola Signage Strategy Directors discussed whether local names should be used. JQ pointed out that there is an official naming procedure through the Place Names Committee. 	Borroloola Youth Food Program	more promotion of bursary and

#	Agenda Item / Action	Outcome
	The Board discussed in detail their concerns about this program and the view of many that feeding children is a family responsibility and not for the CBT to get involved with. A number of directors were concerned about the price of food at Malandari Store and JQ said local people should lobby the store committee about this. He expressed the view that the money on this project would be better spent engaging a consultant to map out local committees and boards. This would allow local people to understand who they should lobby if they want change. The Board resolved to rescind previous approval for this project. Moved – SE Seconded – TTC	redistribute media release POs to advise School of the Air of decision POs to follow up on the Place Names Committee

Meeting closed: 2:20pm	 Director Photos will be taken at the November meeting Director Requirements ABRS – Director Identification Number Next Board Meeting and AGM JQ indicated that a chair needs to be elected at the AGM. He also encouraged local directors to consider standing as Co-chair.
