| On duty -                | Time: 0800 |
| Location: St. Clair Lime |            |

## Quarry Job

Switch the quarry and work the branch line to Marble City. Interchange cars with the Westville Dodger (WVD), Super Dog South (#77), and the Super Dog North (#78) on the Marble City House Track. The WVD makes 2 visits. It should arrive first, but at times #77 may get there first. First visit, it will drop hoppers. Second time, it will pick up. 77 & 78 both drop and pick up. Drag all inbound cars from the Marble City House Track to the "St. Clair Hold" track. Run all trains locomotive first: no long shove moves. Branch line speed is 10 MPH. When you arrive at the Hold Track, use the second locomotive to pull the cars and spot them to the correct loader tracks as shown in your switch list.

You are qualified on the KCS 3rd Sub. Depending on traffic and engineer availability, you may be called on to run mainline trains on the KCS.

### Marking up/Starting a run:

**Select loco on throttle: dial up all 4 digits, then press "SEL".**

**Contact the Dispatcher:**

Always start with "Train (*your #*) calling Dispatcher, over."  
(so, "Quarry job calling Dispatcher, over".)

**Entering KCS trackage at Marble City:** "Quarry job seeks permission to enter KCS siding at Marble City, Over"
