More filters. Sort order. Sep 15, TheMadHatter rated it really liked it Shelves: children , humor , action. My Actual Rating: 3. Son's Actual Rating: 5 Stars. I have been reading this series with my son He is 8 and this book is well suited for his age.

At just under pages, it has taken about a month to read a chapter or two each night before bed. In this adventure, Hamish goes to OtherEarth a parallel universe where your counterpart is the opposite - My Actual Rating: 3. In this adventure, Hamish goes to OtherEarth a parallel universe where your counterpart is the opposite - gender and trait as he tries to battle the evil Scarmarsh and his army of Terribles.

OtherEarth is ruled by King Les as opposed to Queen Liz , with the Union Jill flying high and gender role reversals which make you giggle at the absurdity of gender dictating anything. The humor was not as strong compared to book 1 for adults anyway , but my boy loved it especially Grenville and Greta and I think this series has transformed him from a non-reader to a reader and surprisingly from a non-writer to a writer.

His English teacher has been gushing about his writing lately, and I put it all down to this series and his engagement. I also forget sometimes how the simple act of reading a book with a child can lead to many conversations about "what does that word mean? THIS is the power of reading. View all 5 comments. Ich habe mich wahnsinnig auf die Fortsetzungen gefreut. Die Einleitung war zwar gar nicht mein Ding, aber sobald es mit der Geschichte losging, war ich wieder begeistert. Es hat nur wenige Seiten gebraucht, um mich sofort wieder in der Geschichte versinken zu lassen. Mit Absicht, wohlgemerkt.

Humor und Komik waren eindeutig vorherrschend in diesem Buch. Ich fand sehr interessant, was der Autor daraus gemacht hat. Mein einziger Kritikpunkt an diesem zweiten Band ist die Masse an relativ unwichtigen Charakteren. Zwar hat der Autor eine Hilfestellung geliefert, um die Beziehungen der Charaktere zueinander hervorzuheben und zu betonen, aber so richtig hat das leider auch nicht geholfen. Fazit Es hat sich auf jeden Fall gelohnt, die Geschichte auf Englisch weiter zu verfolgen. Oct 17, Kynan rated it liked it Shelves: childrens , earth , english , female-protagonist , fiction , illustrated , made-of-paper , male-author , male-protagonist , original-language-english.

TL;DR: Fun book for kids, not aimed at adult audiences and not as funny as Hamish and the Worldstoppers but I still got several giggles out of it. Would recommend it if you liked the first one. TL: Hamish and the PDF the Pause Defence Force, an initialism that bears increasingly less relation to their ongoing mission of defending the world from everything post World-Stopper are back in demand as an evil villain attempts to take over the world by "blanking" all the adults and turning them into TL;DR: Fun book for kids, not aimed at adult audiences and not as funny as Hamish and the Worldstoppers but I still got several giggles out of it. TL: Hamish and the PDF the Pause Defence Force, an initialism that bears increasingly less relation to their ongoing mission of defending the world from everything post World-Stopper are back in demand as an evil villain attempts to take over the world by "blanking" all the adults and turning them into vapid automatons.

The main thing I liked about the first book was that it was a LOT of fun to read and funny to multiple audiences; having a pretty cool plot also helped. There's still some humour that's aimed at the adult audience possibly with a desire to keep those reading to a younger audience engaged but this book was mostly aimed a bit lower, there's a lot more "gross humour" you know, boogers and what not in this than in the previous book. That said, the story is still a lot of fun and it's very reminiscent of a Roald Dahl adventure. There's not a HUGE amount of explanation given for things, more a sequence of events that definitely stick together, just don't look too closely at the joins!

I don't want to talk about the characters too much because it's impossible to do so without spoiling the plot. Rest assured that there are a lot of fun characters. In fact, perhaps too many! I ended up with a couple of days gap between starting and finishing this whilst reading something else at the same time and I found myself having to flick back and catch-up on who was who in the latter chapters. The other thing that really makes this book so enjoyable are the illustrations by Jamie Littler. They really bring the characters to life and I love the marginalia that adds incidental interest to text-heavy pages.

Overall, I enjoyed this and I'll be moving on to Hamish and the Gravity Burp because it's leaned into pretty hard in the final chapter and I really do want to know what happens next! Jun 10, pinknautucket rated it liked it. My nephew got this for his birthday and I started reading it while I was there for his party and then pinched it so I could take it home and finish it, shhhh don't tell, he'll never notice.

Quite fun, possibly a little forgettable, but I think a nice adventure because it contains different types of people who react in different ways to things. It has more character diversity than many adult books. I was a bit annoyed by the character's "opposites", when they encountered them in the My nephew got this for his birthday and I started reading it while I was there for his party and then pinched it so I could take it home and finish it, shhhh don't tell, he'll never notice. I was a bit annoyed by the character's "opposites", when they encountered them in the bizarro-universe, they seemed a bit bluntly drawn and also were always the opposite gender.

This review makes no sense, does it? My copy: stolen from my nephew. Mar 23, Nicole Wright rated it it was amazing. Really enjoyed by my daughter. Feb 26, GeoffLynas rated it really liked it Shelves: , comedy. Second book in the series. Still very funny. Felt there was less humour aimed at adults. Hamish still lovely but tended to be a bit sidelined by the large cast of supporters, both the PDF and the Otherworld equivalent. So many named characters, I found I was beginning to forget who was who. Rollicking pace again. Nefarious larger than life baddie and scheme. Some little plot hics that didn't bear too much examination and didn't spoil anything. Looking forward to 3 as the threat just keeps on Second book in the series. Looking forward to 3 as the threat just keeps on getting ramped up. Oh, and big thumbs up to Jamie Littler again. Feb 01, Mehli rated it it was amazing Shelves: twinkling-stars , away-laughing-on-a-fast-camel , children-but-also-for-adults , cover-love , octarine , the-butler-did-it , warning-english-books.

It took me a few tries started when I got this book in February to get through this book. Don't get me wrong, it was amazing, but the start of the book was just so slow and I struggled a bit to get through it. But as soon as you are through the first part the rest just flies away and you will speed through the book. There are twists and turns, and fun new characters, and reunions and much much more! You won't be able to put this book down once it starts up for real! I just loved the It took me a few tries started when I got this book in February to get through this book.

It would be fun if this was true, I wouldn't mind meeting my other half, a guy since I am a girl , and see how the opposite of me is living his life. Hamish and the Neverpeople. Read this book?
