## 6 Fingers Traits Found On Giants As Well As Double Sets of Teeth

2 Samuel 21:19-20, “And there was again a battle in Gob with the Philistines, where Elhanan the son of Jaareoregim, a Bethlehemite, slew the brother of Goliath the Gittite, the staff of whose spear was like a weaver's beam. And there was yet a battle in Gath, where was a man of great stature, that had on every hand six fingers, and on every foot six toes, four and twenty in number; and he also was born to the giant.”

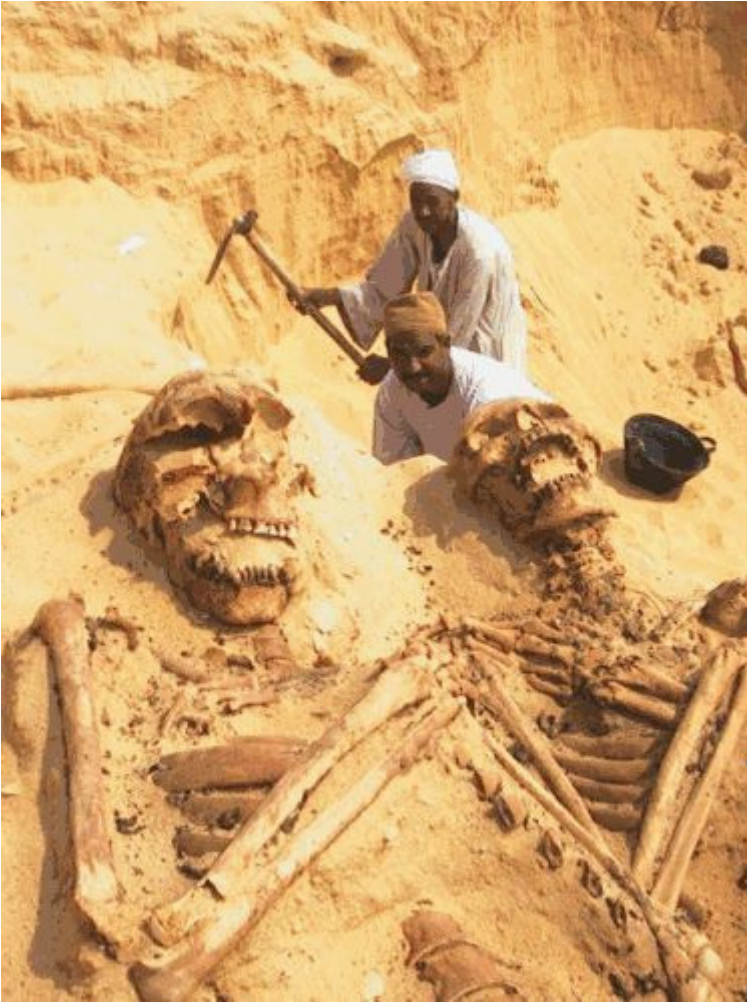

This is suppose to be an elaborate hoax... said to be a photo of a mammoth that was retouched in Photoshop. If this is the case, then where is the REAL photo of the mammoth! Someone is trying to cover up what they found? I am not discounting this could be a possible photo hoax. It looks unlikely unless you just don't want to believe that there were Giants!

No evolutionist would want you to know that there were giants at one time. They don't want anyone knowing that the "fossil record" has proof of giants! This would mean that the Bible is true; and the entire "scientific" world would have to admit this! They do not want that; so, they have to make this as catatonic as possible! Calling all the photos hoaxes to discredit the evidence found there. I still want to see the original photo of this prehistoric mammoth, mastodon, dinosaur, or what ever they are calling this! What if all those bones they found that they claim are dinosaurs are actually jumbled up mass graves of giants! Humanoid Giants! The ones in Genesis 6 after all were drowned out in a flood! They would have run for higher ground which would have grouped them together when they finally drowned out!

1. Present day modern man which averages about 6-feet tall + or - several inches or more.
2. 15-foot human skeleton found in southeast Turkey in late 1950's in the Euphrates valley during road construction. Many tombs containing giants were uncovered here. This pertains to the picture of the giant human femur and myself above.
3. Maximinus Thrax Ceasar of Rome 235-238 A.D. This was an 8' 6" skeleton.
4. Goliath was about 9 feet + or - a few inches. I Samuel 17:4 late 11th century...
5. King Og spoken of in Deuteronomy 3:11 whose iron bedstead was approximately 14-feet by 6-feet wide. King Og was at least 12-feet tall, yet some claim up to 18.
6. A 19'6" human skeleton found in 1577 A.D. under an overturned oak tree in the Canton of Lucerne.
7. 23-foot tall skeleton found in 1456 A.D. beside a river in Valence, France.
8. A 25' 6 " skeleton found in 1613 A.D. near the castle of Chaumont in France. This was claimed to be a nearly complete find.
9. Almost beyond comprehension or believability was the find of the two separate 36-foot human remains uncovered by Carthaginians somewhere between 200-600 B.C.

Giants found in India!

Is this one a hoax also? What kind of mammoths are these?

Very elaborate Photoshop drawing! I don't think so! This needs to be in Ripley's Believe It or Not!

Looks like this may have been a couple! Male on the left and Female on the right!

This one has an elaborate scheme to discredit this as a hoax; the problem is there is no “original” this was created from! If these people were superimposed into this smaller to give the appearance of a larger find, this would not be likely seeing the area tree and grass is the same proportion as the two living people. The people claiming this to be a hoax posted a possible way this was done, by reversing the process!

I could have done a better job, but to be quite honest, it would be easier to make new dirt in the hole than it would be to make the bones from just a dirt photo! The reverse of what they did would be impossible. I am not discounting a possible superimposing of the people in this photo as a hoax; however, this is like I said not in keeping with the tree and

grass surrounding the area. Also notice the major blur in the edited photo and the clarity in the upper photo.

Yet another hoax??? I would like to meet the artist that did the texture in this if it's a hoax! As an artist myself; it would be very interesting to see how he does this! NOT!

This is a double switch on the hoax! The real hoax is that they are telling us all that these photos are hoaxes! And if they are; where are the ORIGINAL photos that were doctored up! What did they really find in these digs? I don't want words... the original photo will do! Oh, what? NO ORIGINAL PHOTO? That is too bad! Then perhaps THIS is the original one!

Believe what you want. Even if these photos were elaborate hoaxes; the Bible tells us that there were giants before the flood! This accounts for the cohabitation of fallen angels called the sons of God, and fallen mankind, the women that they took as wives. The progeny of these beings were the giants!

Some of this would have been passed through the flood through one of the wives of the sons of Noah. And based on the giants in many other places in scriptures this would have to be Hams wife. Of the three sons of Noah, Japheth the eldest, then Shem (the line of Christ), and Ham the youngest. However the larger giants would have been before the

flood, because of the length of years everyone lived, and the larger growth of things during that time.

What is interesting about this one is the shadow from the helicopter is covering steps! Why would this be in the photo? It almost looks as if the helicopter is superimposed; but looking at the stairs in the shadow leads me to believe this is an actual account of Giant remains that someone is trying really hard to make these all look like hoaxes. The shadow of the helicopter matches the shadow of the skull and the rocks.

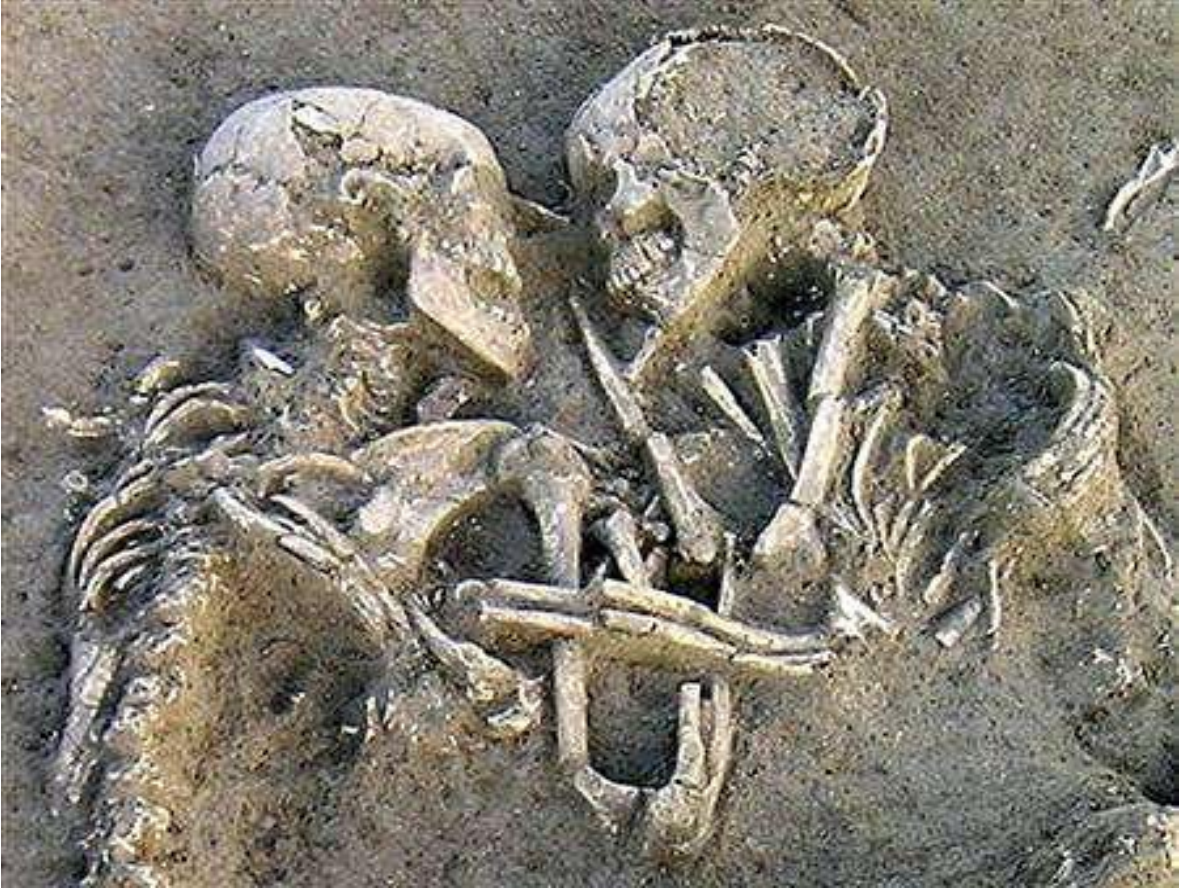

If this is an actual photo of what would be called remains of Giants and with the size of the staircase in the shadow of the helicopter, this would mean that a six foot man could easily sit in the eye socket of this giant!

I guess this one is another hoax? It is much smaller! A small giant? Possibly just a child!

Genesis 6:1-4, “And it came to pass, when men began to multiply on the face of the earth, and daughters were born unto them, That the sons of God saw the daughters of men that they were fair; and they took them wives of all which they chose. And the LORD said, My spirit shall not always strive with man, for that he also is flesh: yet his days shall be an hundred and twenty years. There were giants in the earth in those days; and also after that, when the sons of God came in unto the daughters of men, and they bare children to them, the same became mighty men which were of old, men of renown.”

The Genealogy is in 1 Chronicles, if you run that down you will see the giants on this side of the flood and where they came from: it was Ham's wife because the Philistines came through them. Start at verse 8 and run that down to the Giants: vs 12: "...Casluhim, (of whom came the Philistines,)..." and then there are the Anakims and the Emims; Deuteronomy 2:10, "The Emims dwelt therein in times past, a people great, and many, and tall, as the Anakims;" and Deuteronomy 2:11, "Which also were accounted giants, as the Anakims; but the Moabites call them Emims." IF it was by the DNA or these are just a tall people they were NOT the stature of the Giants prior to the flood; if they had issues with growth and lived as long as they could before the flood they would be much taller back then.

All cultures have references to the Giants of old times. This gene would have spread to other sub-races over time and although it shows up in all races now, they are as giants becoming smaller than they were historically.

This drawing features a giant in Inca style clothing circa 1500 AD. The giant is levitating a boulder using the sound of his voice. He is approximately 15 feet tall with an elongated head, hollow nose, double set of teeth and 6 fingers. A normal-sized man stands in front of him indicating relative size.

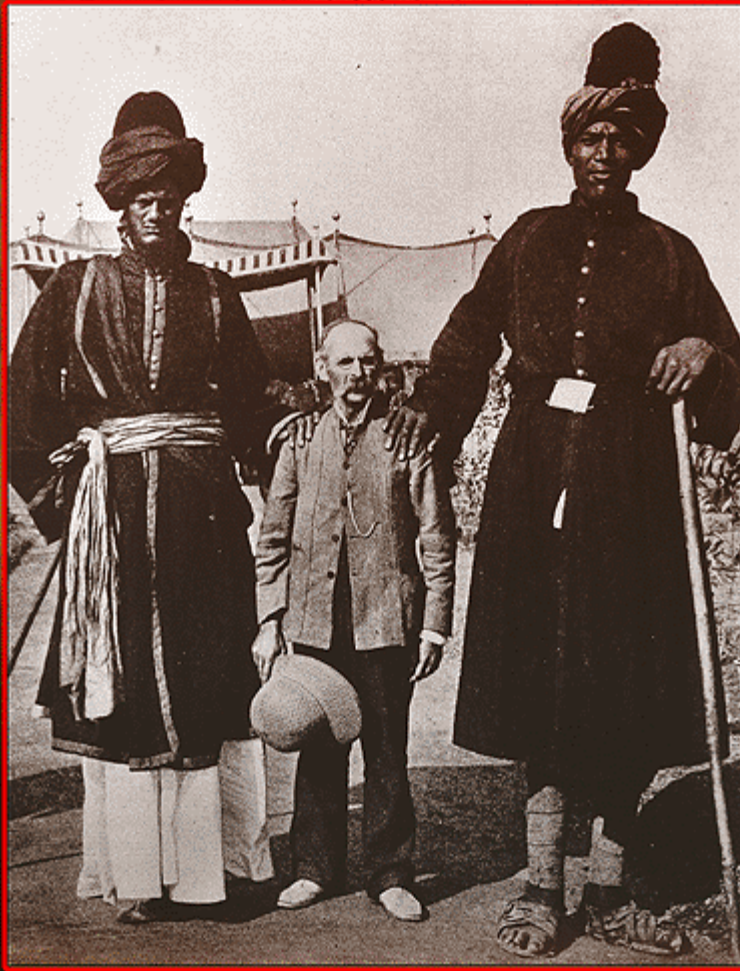

There are giants of the modern era, and in modern history. You can find “the tallest man” or “the tallest woman” and more of these in history online.

There are also books about Giants as well.
