

Slow Aging at the Cellular Level with

VIVIX

GUARANTEED: Feel Younger, Longer, or Your Money Back

Factors such as stress, poor diet, and environmental toxins can weaken cells' natural defenses, lower cell energy, damage cellular DNA, and decrease cell performance ... All of which can contribute to cellular aging.

Global cutting-edge research in the fight against cellular aging and years spent in partnership with leading scientists have culminated in VIVIX ... a delicious tonic that contains both resveratrol and a broad spectrum of over 15 polyphenols, including ellagitannins, one of nature's most potent antioxidants. This proprietary phytonutrient blend harnesses the powerful antioxidant properties of rare muscadine grapes.

10X more effective than resveratrol alone!

Creates Powerful Results in:

- 1) Cellular Defense
- 2) Cellular Energy
- 3) Cellular Repair
- 4) Cellular Performance

1 teaspoon of Shaklee VIVIX delivers the equivalent amount of RESVERATROL found in 100 glasses of red wine
½ teaspoon 50 glasses of red wine
¼ teaspoon 25 glasses of red wine
(For optimal benefit, one teaspoon of VIVIX is recommended daily)

To FIGHT CELLULAR AGING & MORE ... ORDER YOUR VIVIX TODAY!
