Thank you for your payment.

Your Budget Plan has been reviewed. Any change in your monthly budget amount is due to a change in your gas use and/or cost of gas. A change, if any, is for an interim period in an attempt to properly balance your account for the plan year.

Your utility bill includes charges for the sale and delivery of your natural gas supply, as well as various state and local taxes, fees, surcharges and assessments. Previously the utility assessment was increased by the State and, as of July 1, the increase will add approximately \$22 to the average residential customers annual bill. The assessment funds will be remitted to New York State.

BILLING INFORMATION - Understanding your bill

The State Regulatory Commission approves all charges for gas service. You may review a copy of our current rate schedule at any of our offices. You may do this to check your monthly bill or to read about various charges on your bill. Terms that may appear on your bill are described below.

Bill Payment: You can pay your bill by mail, by Direct Pay, online or at our local offices. You can also pay at any authorized payment agent where there will likely be a processing fee assessed by the agent at the time of payment.

Billing Service Charge: Identifies and sets out the Company's cost of rendering your bill and providing account management services.

Budget Plan Add or Deduct: This is the amount added to or subtracted from your current bill to equal your budget plan monthly payment amount.

CCF: One hundred cubic feet of gas; a measure of quantity. One ccf will heat about 160 gallons of your tap water to 130° F - the average hot water temperature.

Customer Charge: Covers some of the costs that do not change based on the amount of gas you use. These costs include meter reading and line maintenance. This charge is billed to you whether or not you use any gas.

Delivery Adjustment Charge: Reflects the monthly changes in the cost of reserve capacity and Commission approved surcharges and credits.

Delivery Service Charges: The charges that relate to the delivery of natural gas on our system to your service address. This is the utility's regulated cost of doing business (with associated taxes) and applies no matter which natural gas supplier you choose.

Estimated Reading: Normally we try to read your meter every other month. We have estimated this reading because we were either unable to read your meter, or we were not scheduled to do so.

Gas Supply Charges: The charges for the natural gas product which is sold either in cubic feet or dekatherms.

Neighbor-For-Neighbor Heat Fund: You may make voluntary donations to this fund to help qualifying individuals pay their utility bills.

Notice of Electronic Check Conversion: When you provide a check as payment, you authorize us either to use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. When we use information from your check to make an electronic fund transfer, funds may be withdrawn from your account as soon as the same day we receive your payment, and you will not receive your check back from your financial institution. If you want to opt out and not have your payments collected electronically, please contact us.

Online Services: You can set up automatic payments, view billing and payment history, sign up for budget billing, and even submit meter readings.

Tariff Surcharge: The amount of allowed recovery by the Company of gross receipts taxes and corporate income tax.

Weather Normalization Adjustment: During the heating season, bills are adjusted (up or down) to reflect changes in actual weather levels.

Current Month Charges		99.31
