Dear Reader:

The Southwest New Mexico Council of Governments prepared the 2020 Statistical Abstract as a service to counties, municipalities, and other groups in the four county region we serve. This is the 30<sup>th</sup> revision of the Abstract which has been fully updated using 2010 Census data. We are also including previously unreleased data for Census Designated Places (“CDPs”) that provides detailed information for smaller communities.

The information is gleaned from a variety of sources. It is intended to provide a reference for economic development, transportation, infrastructure design, grant applications, and community research. We are grateful to the Economic Development Administration and the State Grant-in-Aid for funding this important publication.

We would also like to thank the other organizations and individuals who contributed their time and information to make this publication possible.

We invite your feedback on the 2020 Statistical Abstract. The Abstract is also posted on our website, [www.swnmco.org](http://www.swnmco.org).

Sincerely,

Priscilla C. Lucero  
Executive Director

## Introduction

The data presented herein has been culled from various sources. It is provided as a selection of data available and is by no means comprehensive. We have shown website details for sources wherever possible; we encourage you to explore the sources of this data and provide us with feedback. At the time of compilation, we used the most current data available, particularly from the U.S. Census Bureau for the 2010 U.S. Census which can be found at [www.factfinder2.census.gov](http://www.factfinder2.census.gov).
