MDLive Telemedicine Enhancement

Dear Participant:

We would like to share some exciting news with you. The DC51 Health & Welfare Fund has partnered with MDLive to offer an enhancement to your Plan in the form of a Telemedicine services option.

With MDLIVE, you can access a board-certified doctor via secure online video, phone or the MDLive App at anytime and anywhere, 24/7/365. MDLIVE was designed as an alternative to expensive urgent care visits or waiting days to get an appointment with your primary care doctor for non-emergency medical conditions. MDLive doctors can diagnose your symptoms, prescribe non-narcotic medication (if needed), and send e-prescriptions to your pharmacy of choice

The fee for Telemedicine services is \$40 per consultation. This is typically much less than the 20% co-insurance required for a primary care provider (PCP) office visit.

The enclosed flyer provides instructions on how you can easily sign up for MDLive and activate your MDLive account.

Please contact the Fund Office at the number listed above with any questions.

We encourage all members to take advantage of this new benefit when appropriate as a convenient and cost effective alternative to going to the ER or Urgent Care. This option is especially relevant given that many PCPs are restricting office visits as a result of the COVID-19 outbreak.

Sincerely,

The Board of Trustees
