

## DEAR ADVOCATE ARMY

The Department of Health and Services is asking for comments on the Safe Harbor that allows GPOs to conduct business with kickbacks.

This change will eliminate the ability for GPOs to hide behind the Safe Harbor and will increase quality healthcare access and choice, lower costs, and increase competition and innovation in hospital supply chain.

The federal government wants to hear from healthcare providers, patient advocates, and innovators **before February 15, 2022** - and we need your help!

***CIAAG and Free2Care are asking for your support.***
