

Hello

Dear Families,

Spring is here and we have many exciting things planned for this month! We ended March by talking about nutritious food and how to fuel our brains. We have also been looking at where food comes from. Did you know that peanuts grow under the ground??

We will start April off with a few fun Easter activities, including egg-dying, egg-speriments, and egg-hunts!

Throughout the month of April, we will be celebrating Earth Day, which is April 22nd. Each week we will be practicing something that can help our earth and environment in a small, yet meaningful, way.

We hope to take many trips to the park/field this month to explore our environment and appreciate what it has to give. It will be a very fun-filled month for our class!

Please continue to send your child with suitable outdoor gear for the weather. Without jinxing anything, it may be safe to put away the snowsuit and trade it in for splash pants!

April 2nd, Friday -

No classes

April 5th, Monday-

No classes

April 6th, Tuesday-

Parent conference

sign-up available

April 23rd, Friday-

Parent Conferences

Parent Conferences

-Friday, April 23rd.-

-No Class-

Throughout the month, Miss Lisa and I will be taking pictures of the children and their activities as they move about their day, capturing their favorite things to do here in the classroom.

Each child will have 3-4 pictures sent home in a booklet with a short note about what is going on in each picture. We hope you can use this as a prompt to chat at home about what your children have been up to in here!

We have decided to push back our parent observations until later in the year, we hope!

We are however looking forward to Parent Conferences with the choice of meeting in person or over 'Zoom'!

There will be a sign-up sheet on our communication board available on **Tuesday, April 6th.**

Thank you!

Purdys Fundraiser

Thank you all so much for your purdy's orders. We are excited to use the money raised to update our outdoor play space!

Summer Camps!

We will be providing weekly themed summer camps for school-aged children! Please visit our website for more information and registration forms.
