

MPJ-3

Simply the Easiest Projector Mount to Install and Align!

Pitch Adjustment
+-8°

Roll Adjustment
+-15°

Yaw Adjustment
+-360°

This Rolls Royce of projector mounts, is simply the easiest to install and also, the most precisely adjustable, without the use of tools. Heavy duty design makes this unit ideal for larger projectors and those with a lens that is off-center.

Installation

Installs to any structure with 1.5" NTP thread. Simply rotate the large easy to grip knobs to make all the necessary adjustments during installation. Crimson lead screw adjustment mechanism is unique and precise.
