

**Rainbow Relaxation
Home Facial**

What to expect from your At-Home Treatment

When you sign up for the RR Aromatherpy Home Facial, you will have received a number of forms to complete before your place was confirmed. I have used the information provided by you to decide which products from the AA skincare range would suit you best (or find alternatives if you have super sensitive skin). These will then be posted out to you, or delivered (to the address given on your intake form).

Your products come with numbers and letters on, you can find the key to that here : <https://rainbowrelaxationmassage.co.uk/Aromatherapy-Facials-Product-List>
as well as links to more information on the products.

You will be required to complete a patch test at least 24hrs before the class, with the products provided, in case of reaction. You will get a reminder and instructions of this the day before.

The Zoom Link can be found on your client platform where you fill in your form (don't forget to sign up for Zoom, this is completely free and can be done by following the link for the class too)

Please arrive a few minutes early for the Zoom. If you are late you may miss something vital, and it may also disturb the flow of the class. Please also ensure your camera is ON. I need to be able to see you to stay compliant with my insurance!

What You need to bring

You are provided with all the products you need for your At Home Facial, All you will need is:

A device to connect to Zoom (phone/tablet/laptop etc)

Safety

Please note, that with the patch testing and consultation forms you have completed, every effort has been made to choose products that you will NOT have an adverse reaction to.

That said, if at any point during the class you feel like you are becoming sensitive to the product, please go and wash it off with warm water immediately.
