Sweet potatoes, peeled, boiled, 301
Swiss chard, ckd. from raw, 483 *
Tomato, raw, 1 medium, green, 251
Tomato, raw, 1 medium, red, 273

TIP: To reduce potassium content of vegetables, boil in large amount of water, rinse and drain. All salt substitutes and many preservatives contain potassium, phosphates, and sodium. Many canned vegetables were omitted from this guide because of their high sodium content.

† Foods high in phosphorus. * Foods high in Vitamin K, a concern for those on anti-coagulant therapy.
